

# BULLYING.

By: Kristine Laurio & Hermina Palacios

6<sup>th</sup> Period

Bullying isn't just punching someone in the face or someone calling you names. Bullying is a lot more than that. There are different types of bullying. Here are some examples, physical, verbal, indirect, social alienation, and cyber bullying. Did you know that an estimated 200 million children and youth around the world are being bullied? It's true that much people are being bullied.

Physical bullying is any kind of physical contact that could hurt someone. Like punching, pushing, kicking, hitting, and more. For example, if someone came up to you and shoved you to the ground that would be physical bullying. If someone just punched you in the face it would be physical bullying. Even if someone's poking you and you don't like it that's physical bullying.

Verbal bullying is name calling, making offensive remarks, or joking about someone's race, religion, social status, gender, or the way that they look. 46.5% of bullying in schools is verbal bullying. If someone made fun of the way you look that's verbal bullying. If someone called you stupid that's verbal bullying. Verbal aggression is when a bully teases someone. It is also making verbal threats of violence or aggression against someone's personal property.

Indirect bullying is spreading rumors about someone, gossiping about it, and excluding others from groups. Indirect bullying is 18.5% of all bullying. If you spread a rumor about a girl in class just because you thought it was funny or if it was because you didn't like her that would be indirect bullying.

Social alienation is when a bully excludes someone from a group on purpose. It also includes spreading rumors, or pointing out someone else's differences. For example if a group of people didn't want to hang out with this girl from their class because they thought she was weird, that would be social alienation.

Intimidation is when a bully threatens or intimidates someone else enough to get the person to do what they want. For example if you told a person to give you money or

DeWitt, CGA, 2017-01-26 David DeWitt has done it once more In his latest book Bullying Applying Handwriting Analysis to Detect Potential Signs and Effects David DeWitt puts forth a timely hypothesis that carries great import for contemporary American society As a certified Graphoanalyst David DeWitt has spent a lifetime studying the link between human behavior and handwriting This field of endeavor is referred to as Graphology and is a science unto itself

I have personally witnessed this man as he applied his extensive knowledge to analyzing the handwriting of interested volunteers and the results of his findings were incredibly accurate. The individuals involved were to a person amazed by the insights that he garnered based upon their handwriting samples. Above all, David DeWitt is a humanist of the highest caliber and his altruism has inspired him to deploy his unique skill set for the betterment of mankind. On October 7, 2003, young Ryan Halligan's life ended as a result of recurrent bullying by his peers. John Halligan, Ryan's father, has since made it his mission to speak out publicly against bullying and to alert people to its many and varied warning signs. Having met Mr. Halligan personally, David DeWitt was touched by Ryan's tragedy and was compelled to marshal his graphoanalytic talents in the war against bullying. In his newest work, *Bullying: Applying Handwriting Analysis to Detect Potential Signs and Effects*, David DeWitt methodically exposes the reader to the links between handwriting and possible aggressive and dishonest behavior. This book is not just for parents; we are all involved in the battle against bullying. I endorse David DeWitt in his literary efforts and highly recommend this book to you. Simply stated, this is a must-read. John De Mado, John De Mado Language Seminars LLC, Author, Houghton Mifflin Harcourt, McGraw Hill, Pearson.

**Story, Not Study: 30 Brief Lessons to Inspire Health Researchers as Writers** Lorelei Lingard, Christopher Watling, 2021-04-26. Many researchers dread writing. They find it laborious, even painful, to put their scholarly work into words. They get bogged down in the study and lose track of the story. And they produce uninspiring papers that fail to resonate with readers or reviewers. This book offers an antidote to this problem: brief, accessible lessons that guide researchers to write clear and compelling scientific manuscripts. The book is divided into three sections: Story, Craft, and Community. The Story section offers advice on getting the balance of study and story just right, introducing strategies for tackling each section of a scientific manuscript. The Craft section considers the grammatical and rhetorical tools of the trade, showing how they can be wielded for maximum impact. And the Community section offers suggestions for writing collaboratively, supporting other writers, and navigating peer review. Each section features multiple short and pragmatic lessons peppered with illustrative examples. Readers can use the chapters collectively to build holistic writing skills or dip in and out to refine specific elements of the craft. Rooted in a coaching philosophy, we aim to unlock our readers' potential as writers through instruction, reflection, and example. And we hope to inspire researchers to face writing with joy. This work is clearly written and easily understandable. Its many practical examples, tools, and exercises make an effective toolbox of support for scholarly writers. This will be invaluable to new scholars and help established scholars as well. The inclusion of examples specific to the health arena and the clear, elegantly simple explanations add strength and relevance to this work. Toni Ungaretti, Johns Hopkins School of Education, Baltimore, MD, USA. This book is the most original perspective I have ever read about the craft of writing. As its title suggests, it is inspiring. Brownie Anderson, NBME, Philadelphia, PA, USA.
