*International Perspectives on Rethinking Evil in Film and Television* Tüysüz, Dilan, 2020-12-22

Aestheticization of evil is a frequently used formula in cinema and television However the representation of evil as an aesthetic object pushes it out of morality Moral judgments can be pushed aside when evil is aestheticized in movies or TV series because there is no real victim Thus situations such as murder or war can become a source of aesthetic pleasure Narratives in cinema and television can sometimes be based on a simple good evil dichotomy and sometimes they can be based on individual or social experiences of evil and follow a more complicated method Despite the various ways evil is depicted it is a moral framework in film and television that must be researched to study the implications of aestheticized evil on human nature and society *International Perspectives on Rethinking Evil in Film and Television* examines the changing representations of evil on screen in the context of the commonness normalization aestheticization marginalization legitimization or popularity of evil The chapters provide an international perspective of the representations of evil through an exploration of the evil tales or villains in cinema and television Through looking at these programs this book highlights topics such as the philosophy of good and evil the portrayal of heroes and villains the appeal of evil and evil's correspondence with gender and violence This book is ideal for sociologists professionals researchers and students working or studying in the field of cinema and television and practitioners academicians and anyone interested in the portrayal and aestheticization of evil in

Myers,Richard O. Straub,2008-11-28      The Bayeux Tapestry John F. Szabo,Nicholas E. Kuefler,2015-06-18 Commanding its own museum and over 200 years of examination observation and scholarship the monumental embroidery known popularly as the Bayeux Tapestry and documenting William the Conqueror s invasion of England in October 1066 is perhaps the most important surviving artifact of the Middle Ages This magnificent textile both celebrated and panned is both enigmatic artwork and confounding historical record With over 1780 entries Szabo and

Kuefler offer the largest and most heavily annotated bibliography on the Tapestry ever written. Notably the Bayeux Tapestry has produced some of the most compelling questions of the medieval period: Who commissioned it and for what purpose? What was the intended venue for its display? Who was the designer and who executed the enormous task of its manufacture? How does it inform our understanding of eleventh century life? And who was the mysterious Aelfgyva depicted in the Tapestry's main register? This book is an effort to capture and describe the scholarship that attempts to answer these questions. But the bibliography also reflects the popularity of the Tapestry in literature, covering a surprisingly broad array of subjects. The inclusion of this material will assist future scholars who may study references to the work in contemporary non-fiction and popular works as well as use of the Bayeux Tapestry as a primary and secondary source in the classroom. The monographs, articles, and other works cited in this bibliography reflect dozens of research areas. Major themes are the Tapestry as a source of information for eleventh century material culture; its role in telling the story of the Battle of Hastings and events leading up to the invasion; patronage of the Tapestry; biographical detail on known historical figures in the Tapestry; arms and armor; medieval warfare strategy and techniques; *opus anglicanum*, the Anglo-Saxon needlework tradition; preservation and display of the artifact; the Tapestry's place in medieval art; the embroidery's depiction of medieval and Romanesque architecture; and the life of the Bayeux Tapestry itself.

*The Prague School* Peter Steiner, 2014-09-10. The Prague Linguistic Circle came into being on the afternoon of October 6, 1926, when five Czech and Russian linguists gathered to hear a lecture by a German colleague. From this international beginning, the interests of the group grew to first encompass language in all its functional heterogeneity and then finally all of culture, which the Circle conceived of as a structure of sign systems. Semiotics was thus the overarching discipline for the Prague School, serving to organize all phenomena shared and exchanged by a cultural community. In recent years, increasing attention has been paid to the importance of the Prague School, but writing about it has frequently been marred by misconceptions. The central aim of this volume is to correct those misconceptions and to present the diversity of interests within the Prague School: literary criticism, linguistics, theory of theater, folklore, and philosophy. These essays by Bogatyrev, Jakobson, Karcevskij, Mukomolov, Rieger, Vodička, and Honzl are here translated into English for the first time. Some have a special historical value in illuminating critical stages of structuralist thinking; others reveal the timeliness of the School's contributions for the theoretical conflicts of our day. Each essay is accompanied by an informative introductory note, and the whole is followed by the editor's Postscript tracing the roots of structuralist aesthetics.
