*A Strange and Formidable Weapon* Marion Girard, 2008-06-01 The advent of poison gas in World War I shocked Britons at all levels of society yet by the end of the conflict their nation was a leader in chemical warfare Although never used on the home front poison gas affected almost every segment of British society physically mentally or emotionally proving to be an armament of total war Through cartoons military records novels treaties and other sources Marion Girard examines the varied ways different sectors of British society viewed chemical warfare from the industrialists who promoted their toxic weapons while maintaining private control of production to the politicians who used gas while balancing the need for victory with the risk of developing a reputation for barbarity Although most Britons considered gas a vile weapon and a symptom of the enemy's inhumanity many eventually condoned its use The public debates about the future of gas extended to the interwar years and evidence reveals that the taboo against poison gas was far from inevitable *A Strange and Formidable Weapon* uncovers the complicated history of this weapon of total war and illustrates the widening involvement of society in warfare

religious traditions      *Psychologism and Psychoaesthetics* John Fizer, 1981-01-01 Unlike studies which confine psychologism to the second half of the nineteenth century and to an explicit claim of psychology as a *Grundwissenschaft* during that period this work attempts to trace psychologism's emergence in Greek antiquity in hedonistic tendencies of the Renaissance and in British Empiricism Thus psychologism figures as a generic concept embracing a variety of both positivistic and idealistic arguments concerning the localization of normative sciences particularly aesthetics and literary theory in psychological space This study also considers the implicit psychologism of even those psychoaesthetic theories which claimed to be against the exclusive status of psychology In their actual treatment of aesthetic and literary facts such theories inadvertently did indeed resort to psychologistic arguments The position from which I have chosen to look at psychologically committed aesthetics and literary theory is essentially phenomenological The author seeks to present psychologism as a central tendency of psychoaesthetics as well as to assert critically psychologism's basic assumptions      Reading the Bible Ethically

Eric J. Douglass, 2014-09-11 All interpretive systems deal with the author Modern systems consider the text to be autonomous so that it is disconnected from the author's interests In *Reading the Bible Ethically* Eric Douglass reconsiders this connection His central argument is that the author is a subject who reproduces her culture and her subjectivity in the text As the author reproduces her subjectivity the text functions as the author's voice This allows Douglass to apply ethical principles to interpretation where that voice is treated as a subject for conversation and not an object for manipulation He uses this to texture the reading process so that an initial reading takes account of the author's communication while a second reading critiques that communication      The Process of Dramaturgy Scott R. Irelan, Anne Fletcher, Julie Felise Dubiner, 2010-01-01

*The Process of Dramaturgy A Handbook* is a guide to dramaturgy for students Its practical approach is to committing acts of dramaturgy and contains exercises models and examples of how the dramaturg works to make his or her thoughtful and creative contributions to a theatrical production from pre production work through the rehearsal process The book provides specific exercises examples and models to assist the student or emerging dramaturg in developing the ability to 1 apply critical methodologies among them literary theory to production 2 better communicate with directors designers and playwrights within the context of rehearsal and production It includes a case study for analysis Neil Simon's *Biloxi Blues*

*My Search for Meaning* Laurence C Jeffrey, 2024-11-04 The text *My search for meaning* was inspired by the author's early curiosity about life's meaning and his reflection on several worldly experiences traversing the continents of North and South America Europe Asia and Africa His interest in and studies of western academic philosophy provides the schema that brings to light the crux of his discovery and the text is intended to share with the reader the author's understanding of life The author hopes that by reading this text it would inspire others to explore philosophical ideas in a broader context

*Renaissance Humanism, Volume 1* Albert Rabil, Jr., 2016-11-11 This book is a volume in the Penn Press Anniversary Collection To mark its 125th anniversary in 2015 the University of Pennsylvania Press rereleased more than 1 100 titles from

**Doing More with Life** Michael Robert Miller, 2007. Vocation is most often linked with a specific calling for those in professional ministry. *Doing More with Life* explores the way higher education can expand this limited understanding of vocation. Specifically, this volume shows that higher education can clarify how God calls all people, allow mentoring across specific vocations, and inspire future generations to think of their lives as vocations.

*Light in a Socio-Cultural Perspective* Ronit Milano, 2018-04-18. The awareness of light as both a concept and a phenomenon existed long before it became a matter of scientific interest. This volume investigates the many ways in which light has been conceptualized throughout history. Employing different methodological approaches derived from various disciplines in the humanities, the essays gathered here situate the concept of light within discourses on gender, religion, intellectual life, politics, art, and digital culture. Through diverse perspectives, light is defined in some cases synchronically as a physical phenomenon, a visual tool, and a philosophic idea. This book combines the fields of intellectual studies, religion, literature, and visual culture to explore the complexities of conceptual paradigms that represent various manifestations of the idea of light. Through original readings, the contributing authors present a range of scholarly perspectives offering new interpretations of the idea of light and its history within the humanities.
