Hurting Memories And Beneficial Forgetting:

Hurting Memories and Beneficial Forgetting Michael Linden, Krzysztof Rutkowski, 2013-01-07 Memories are indispensable for individuals as well as social groups Forgetting not only means loss of functioning but also loss of identity Memories can also be hurting and cause problems as research on posttraumatic stress disorders PTSD has shown This is true for individuals as well as social groups and even societies Memories and especially negative memories can escape the control of the individual Many political conflicts can only be understood when taking history and memories into account In this volume a comprehensive scientific overview is given on the development of hurting memories in individuals and societies Consequences are described i.e. from mental disorders in individuals like PTSD or other neurotic disorders to societal tensions and conflicts from South Africa to Northern Europe Additionally beneficial forgetting is discussed from treatments of individuals to reconciliation between social groups The contrasting of hurting memories and beneficial forgetting can help to understand that memories can have positive and negative results and that it is difficult to decide when to support memories and when forgetting Bringing individual and societal memories in coincidence the benefit is a new perspective on the interaction between individuals and society Pointing to possible negative consequences of memory the benefit is a new perspective of an important but under recognized scientific and clinical problem Presenting modes of treatment and reconciliation for individuals and social groups an overview which can't be found elsewhere [Hurting Memories and Beneficial Forgetting](#) Hans-Peter Kapfhammer, 2013-01-07 [Hurting Memories and Beneficial Forgetting](#) Erika Kuijpers, 2013-01-07 **Hurting Memories and Beneficial Forgetting** Barbara Lieberei, Michael Linden, 2013-01-07

Ward,2023-11-14 For western colonists in the early American backcountry disputes often ended in bloodshed and death Making the Frontier Man examines early life and the origins of lawless behavior in Pennsylvania Virginia Kentucky and Ohio from 1750 to 1815 It provides a key to understanding why the trans Appalachian West was prone to violent struggles especially between white men Traumatic experiences of the Revolution and the Forty Years War legitimized killing as a means of self defense of property reputation and rights transferring power from the county courts to the ordinary citizen Backcountry men waged war against American Indians in state sponsored militias as they worked to establish farms and seize property in the West And white neighbors declared war on each other often taking extreme measures to resolve petty disputes that ended with infamous family feuds Making the Frontier Man focuses on these experiences of western expansion and how they influenced American culture and society specifically the nature of western manhood which radically transformed in the North American environment In search of independence and improvement the new American man was also destitute frustrated by the economic and political power of his elite counterparts and undermined by failure He was aggressive misogynistic racist and violent and looked to reclaim his dominance and masculinity by any means necessary **Transitional Justice in Comparative Perspective** Samar

El-Masri,Tammy Lambert,Joanna R. Quinn,2020-01-17 What if we could change the conditions in post conflict post authoritarian countries to make transitional justice work better This book argues that if the context in countries in need of transitional justice can be ameliorated before processes of transitional justice are established they are more likely to meet with success As the contributors reveal this can be done in different ways At the attitudinal level changing the broader social ethos can improve the chances that societies will be more receptive to transitional justice At the institutional level the capacity of mechanisms and institutions can be strengthened to offer more support to transitional justice processes Drawing on lessons learned in Colombia Democratic Republic of the Congo The Gambia Lebanon Palestine and Uganda the book explores ways to better the conditions in post conflict post authoritarian countries to improve the success of transitional justice *Psychodynamic Perspectives on Asylum Seekers and the Asylum-Seeking Process* Barbara K.
