Mearshimer And Walt Report:

Toward a Critical Rhetoric on the Israel-Palestine Conflict Matthew Abraham, 2015-07-01 This edited collection brings together a group of rhetoricians seeking to develop productive ways to discuss the Israel Palestine conflict while avoiding the discursive impasses that so often derail attempts to exchange points of view

Genre and the Performance of Publics

Mary Jo Reiff, Anis Bawarshi, 2016-03-01 In recent decades genre studies has focused attention on how genres mediate social activities within workplace and academic settings *Genre and the Performance of Publics* moves beyond institutional settings to explore public contexts that are less hierarchical broadening the theory of how genres contribute to the interconnected and dynamic performances of public life Chapters examine how genres develop within publics and how genres tend to mediate performances in public domains setting up a discussion between public sphere scholarship and rhetorical genre studies The volume extends the understanding of genres as not only social ways of organizing texts or mediating relationships within institutions but as dynamic performances themselves By exploring how genres shape the formation of publics *Genre and the Performance of Publics* brings rhetoric composition and public sphere studies into dialogue and enhances the understanding of public genre performances in ways that contribute to research on and teaching of public discourse

The Israel Lobby and U.S. Foreign Policy

John J. Mearsheimer, Stephen M. Walt, 2007-09-04 Describes how the remarkable level of material and diplomatic support that the United States provides to Israel is due to the influence of the Israel lobby which has a far reaching impact on America's foreign policy decisions throughout the Middle East

The Koch Papers Edward I. Koch, Ed Koch, Rafael Medoff, 2009-03-17 For more than three decades Ed Koch has been one of America's most interesting and outspoken political figures In this provocative new book Koch with Rafael Medoff guides readers through the major battles in his life long fight against anti-Semitism Interviews speeches new essays never before published personal correspondence and more highlight his leadership on campuses in the media on the streets of New York City and in the halls of power in Washington DC The book also features personal letters from Henry Louis Gates former President George Bush and other prominent figures Koch will reveal startling information for the first time here and his writings are controversial piercing teasing and questioning This book will ignite discussion for years to come

Pens and Swords Marda Dunskey, 2008-02-06 As world attention is renewed and refocused on the Israeli Palestinian conflict at the sixtieth anniversary of its seminal year of 1948 Marda Dunskey takes a close look at how more than two dozen major American print and broadcast outlets have reported the conflict in recent years Beginning with the failed Camp David summit of July 2000 through the waning of the second Palestinian uprising in the summer of 2004 she finds that the media omit two key contextual elements the significant impact that U.S. policy has had and continues to have on the trajectory of the conflict and the way international law and consensus have addressed the key issues of Israeli settlement and annexation policies and Palestinian refugees Dunskey explores how reports of the conflict routinely take on the contours of American policy and rarely challenge

the premises of this Washington consensus She also examines the media s responses to allegations of biased coverage and gauges the effect that mainstream news reporting has on public opinion and U S foreign policy **Lobbying for Zionism**

on Both Sides of the Atlantic Ilan Pappé,2024-06-11 In 1896 a Jewish state was a pipe dream Today the overwhelming majority of Jews identify as Zionists How did this happen Ilan Pappé unveils how over a century of aggressive lobbying changed the map of the Middle East Pro Israel lobbies convinced British and American policymakers to condone Israel s flagrant breaches of international law grant Israel unprecedented military aid and deny Palestinians rights Anyone who questioned unconditional support for Israel even in the mildest terms became the target of relentless smear campaigns

Lobbying for Zionism on Both Sides of the Atlantic shows us how an unassailable consensus was built and how it might be dismantled The Making of Lebanese Foreign Policy Henrietta Wilkins,2013-05-29 Seeking to explain Lebanon s behavior in the international arena during the 2006 war between Hezbollah and Israel this book offers a critique of both systemic and sub state factors in determining foreign policy decisions The Making of Lebanese Foreign Policy illustrates how systemic theories are limited in terms of explaining foreign policy decisions because they largely ignore the role of internal or sub state factors Within Lebanon foreign policy is split between the interests of different internal Lebanese groups working in alliance with external actors The competing interests of these internal groups compromise the cohesion of the Lebanese state and its capacity to promote its own interests above those of the different internal groups The example of Lebanon during the 2006 war thus demonstrates the importance of these sub state factors in influencing state behaviour on an international level Arguing that a more pluralistic approach is necessary in order to understand the conditions that affect the foreign policy making of the Lebanese state this book fills an important gap in the literature on the topic and will be of interest to students of International Relations Middle East Studies and Islamic Studies amongst others **The Deadliest Lies** Abraham H.

Foxman,2007-09-04 The representative of the Jewish community and staunch defender of human rights Foxman delivers a powerful blow to such ideas as The Israel Lobby He shows how old stereotypes associated with the most virulent forms of bigotry have been resurfacing and taking subtle new forms From Carter to Mearsheimer he addresses the public figures who make these beliefs appear credible He also reveals a disturbing parallel trend the decline of global Jewish solidarity which he argues is critical for dealing with the current threat Foxman advocates forthright and decisive solutions to an international crisis ensuring that this will be an important clarion call *The Case Against Israel's Enemies* Alan Dershowitz,2008-09-29

Israel is seriously under attack from political academic religious and military enemies who are making vociferous threats against its continued existence In this important new book Dershowitz gives pro Israel supporters the ammunition necessary to defend themselves Hegemony in the Digital Age Stephen M. E. Marmura,2010-07-08 Internet technology has arguably changed the rules by which individuals social movements and institutions compete for political and cultural influence in technologically advanced societies The author considers this reality through reference to the concept of hegemony looking to

the ways in which diverse actors in American civil society compete with one another while simultaneously challenging dominant sources of authority The Arab Israeli conflict is drawn upon as a boundary object holding direct interest to a wide range of state aligned lobbies broadly based social movements and marginalized extremist groups each of which hopes to affect the course of U S Mid East policy While various dimensions of internet use and activism are explored Stephen Marmura directs particular attention to the importance and limitations of the World Wide Web as a mass medium Examining phenomena ranging from mainstream news dissemination to the propaganda warfare visible online amongst racist religious fundamentalist and ultra nationalist organizations he argues the Net s greatest advantages are ultimately accrued by those most vested in the political status quo Marmura argues further that widespread use of the Web is likely contributing to processes of social fragmentation even as it reinforces ideological discourses favorable to state power *European Security in the Twenty-First Century* Adrian Hyde-Price,2007-02-12 Combining a sophisticated theoretical analysis with detailed empirical case studies this book provides an original view of the challenges and threats to a stable peace order in Europe The end of Cold War bipolarity has transformed Europe Using structural realist theory Adrian Hyde Price analyzes the new security agenda confronting Europe in the twenty first century Europe he argues is not primed for peace as mainstream thinking suggests rather it faces new security threats and the challenge of multipolarity This critical and original volume looks at European security after the Iraq War the failure of the EU constitution and the change of government in Germany Reflecting on the inherently competitive and tragic nature of international politics it concludes that realism provides the only firm foundations for an ethical foreign and security policy *European Security in the Twenty First Century* will appeal to students and scholars of international relations European politics and security studies *Blaming the Jews* Bernard Harrison,2020-10-06 In recent years Western countries have seen a proliferation of antisemitic material in social media and attacks on Jews such as that on the Tree of Life synagogue in Pittsburgh in 2018 Much of this has stemmed not from personal hostility to Jews on the part of this or that individual but from a resurgence in groups at both ends of politics of the ancient delusion that the Jews collectively dominate world affairs and lie at the root of all the world s evils In *Blaming the Jews* author Bernard Harrison offers a new and unique analysis of this second and far more dangerous form of antisemitism and its persistence as a cultural phenomenon Questioning the assumption that antisemitism affects or targets only Jews he demonstrates that allowed to go unrecognised or unchecked antisemitism is potentially damaging to us all In a world where rhetoric is fashioned on stereotypes and driven by political ideology Harrison argues it is our responsibility to be vigilant in exposing the delusions of antisemitism and their consequences for Jews and non Jews alike **See No Evil** Jim DeBrosse,2018-03-29 After more than fifty years of new evidence and new theories the Warren Commission s claim that Lee Harvey Oswald acted alone and without clear motive in assassinating John F Kennedy has become a wheezing jalopy running on missing and broken parts and fueled with lies And yet the U S media continue to support its findings as the only factual

explanation for the murder of JFK Why does the media marginalize and even ridicule more plausible conspiracy theories when the majority of American people long ago wrote off the Warren Report as a cover up See No Evil analyzes the built in biases of the U S corporate media exposes its complicity in the whitewashing and advocates for the broadest possible investigation into the key players who may have been responsible for the Crime of the Twentieth Century including the CIA Organized Crime and Israel This book is meant for readers who seek the truth no matter where it leads

Transforming America's Israel Lobby Dan Fleshler, 2009 Proposes an alternative pro Israel lobby that liberals can support

Knowing Too Much Norman G. Finkelstein, 2012 Traditionally American Jews have been broadly liberal in their political outlook indeed African Americans are the only ethnic group more likely to vote Democratic in US elections Over the past half century however attitudes on one topic have stood in sharp contrast to this group s generally progressive stance support for Israel Despite Israel s record of militarism illegal settlements and human rights violations American Jews have stretching back to the 1960s remained largely steadfast supporters of the Jewish homeland But as Norman Finkelstein explains in an elegantly argued and richly textured new book this is now beginning to change Reports by Human Rights Watch Amnesty International and the United Nations and books by commentators as prominent as President Jimmy Carter and as well respected in the scholarly community as Stephen Walt John Mearsheimer and Peter Beinart have increasingly pinpointed the fundamental illiberalism of the Israeli state In the light of these exposes the support of America Jews for Israel has begun to fray This erosion has been particularly marked among younger members of the community A 2010 Brandeis University poll found that only about one quarter of Jews aged under 40 today feel very much connected to Israel In successive chapters that combine Finkelstein s customary meticulous research with polemical brio **Knowing Too Much** sets the work of defenders of Israel such as Jeffrey Goldberg Michael Oren Dennis Ross and Benny Morris against the historical record showing their claims to be increasingly tendentious As growing numbers of American Jews come to see the speciousness of the arguments behind such apologias and recognize Israel s record as simply indefensible Finkelstein points to the opening of new possibilities for political advancement in a region that for decades has been stuck fast in a gridlock of injustice and suffering

The War on Error Martin Kramer, 2016-10-31 In **The War on Error** historian and political analyst Martin Kramer presents a series of case studies some based on pathfinding research and others on provocative analysis that correct misinformation clouding the public s understanding of the Middle East He also offers a forensic exploration of how misinformation arises and becomes fact The book is divided into five themes Orientalism and Middle Eastern studies a prime casualty of the culture wars Islamism massively misrepresented by apologists Arab politics a generator of disappointing surprises Israeli history manipulated by reckless revisionists and American Jews and Israel the subject of irrational fantasies Kramer shows how error permeates the debate over each of these themes creating distorted images that cause policy failures Kramer approaches questions in the spirit of a relentless fact checker Did Israeli troops massacre Palestinian Arabs in Lydda in July 1948 Was

the bestseller Exodus hatched by an advertising executive Did Martin Luther King Jr describe anti Zionism as antisemitism Did a major post 9 11 documentary film deliberately distort the history of Islam Did Israel push the United States into the Iraq War Kramer also questions paradigms the Arab Spring the map of the Middle East and linkage Along the way he amasses new evidence exposes carelessness and provides definitive answers Debates, Differences and Divisions Michael Kryzanek,2015-08-26 Debuting its first edition this book is organized around the approach that American politics can best be understood by examining the issues that reflect the ideas principles concerns fears morals and hopes of the American people Debates Differences and Divisions looks at twenty five hot button issues affecting American politics and policy today The author argues that these issues are the heart and soul of the American political system serving as the basis for the disagreements that drive our political system into action *Iran, Israel, and the United States* Ofira Seliktar,Farhad Rezaei,2018-06-20 This book analyzes the process of evaluating Iran s nuclear project and the efforts to roll it back resulting in the 2015 nuclear agreement known as the Joint Comprehensive Plan of Action JCPA Despite its aura of scientific exactitude nuclear intelligence is complex and susceptible to methodological disagreements and political bias at the international oversight level the International Atomic Energy Agency IAEA and within the countries involved in the rollback project Israel and the United States To highlight both the technological problems of assessing compliance and the politicization each chapter in the book uses a real time comparison of the nuclear developments in Iran and the perception of Israel and the United States This methodology yielded some significant results Essentially two camps had formed in each country those who were pushing for an agreement with Iran and those who opposed it The Israeli intelligence agencies the Mossad and the Military Intelligence as well as the highly secretive Israeli Atomic Energy Commission IAEC which advised them considered the program to be weak and slow moving The right wing government of Benjamin Netanyahu suggested that Iran was steps away from the point of no return making it an existential threat to Israel A virtually identical split emerged in Washington While the intelligence community and the advising scientists from the National Nuclear Laboratories considered Iran progress to be relatively modest the Republicans and the Israel lobby the Jewish organizations and the Christian Zionists warned of the imminent danger of a nuclear Iran With the Obama administration pushing for the JCPOA a fierce debate took place in Congress The Israeli intelligence and military chiefs led by the Mossad chief Meir Dagan which had previously blocked Netanyahu from a preemptive action quietly supported the agreement In Washington the Israel lobby and the Republicans helped by Netanyahu mounted an all out effort to defeat the deal in Congress The pro deal coalition fought back by mobilizing the scientific community military and intelligence officials the business lobby and grassroots Democrats The JCPOA represents the first successful effort of peaceful counterproliferation At the same excessive politicization has clouded its legitimacy and cast doubt about its future **U.S. News & World Report** ,2006 Saving Israel Daniel Gordis,2010-06-17 Is Israel worth saving and if so how do we secure its future The Jewish State must end say its

enemies from intellectuals like Tony Judt to hate filled demagogues like Mahmoud Ahmadinejad Even average Israelis are wondering if they wouldn't be better off somewhere else and whether they ought to persevere Daniel Gordis is confident his fellow Jews can renew their faith in the cause and in *Saving Israel* he outlines how 2009 National Jewish Book Award winner Addresses the most pressing issues faced by Israel and American Jews today without recycling the same old arguments Lays to rest some of the most pernicious myths about Israel including Jews could thrive without Israel Israeli Arabs just want equality and Palestinians just want their own state peace will come if Israel will just do the right things Morally powerful from a writer whose reflections are consistently as intellectually impressive as they are moving Gordis addresses the exigencies of our time with the urgency they overridingly demand and with the depth of feeling they inspire Cynthia Ozick Gordis has written many popular personal essays and memoirs in the past but *Saving Israel* is a full throated call to arms Never has the case for defending no celebrating the existence of Israel been so clear so passionate or so worthy of wholehearted support
