Crossing Borders Mimi Sheller,Kevin Hannam,2018-10-18 Crossing Borders examines how translocal transnational and internal borders of various kinds distribute uneven capabilities for moving dwelling and circulating The contributors offer nuanced understandings of the politics of mobility across various kinds of borders and forms of cultural circulation showing how people experience and practice crossing many different borders Several chapters draw on interviews and ethnographic methods to analyze transnational migration while others focus on material relations and cultural practices Rather than the usual narrative of mobility as a kind of freedom border crossing emerges here as an instrumental practice for building translocal livelihoods a tactic for simply getting by and a material practice potentially generating new forms of future sociality Ultimately these diverse perspectives on crossing borders offer new ways to think about the mobility of political relations and the politics of mobile relations in a world of growing circulation across borders but also flexible forms of re bordering This book was originally published as a special issue of Mobilities

The EU's Government of Industries Bernard Jullien,Andy Smith,2014-08-13 To what extent is business activity governed at a European scale Since the advent of the recent economic crisis the EU s choices about the euro debt ratios and interest rates have caught the headlines and highlighted the

importance of EU decision making arenas However these macro economic events actually tell us only part of the story about the extent to which business activity is now governed at a European scale Based upon original research on four manufactured or processed goods industries cars wine pharmaceuticals and aquaculture and driven by theory that is constructivist institutionalist and sociological this book sets out to analyse just what Europe governs by whom and why In doing so it reveals three recurrent features of the European government of industries its omnipresence its incompleteness and its de politicization The authors show that the many gaps in the EU s mode of governing industries stem from struggles over economic doctrine as well as the continued unwillingness of many actors to accord the EU a legitimacy to act politically in the name of industrial government This book will be of key interest to scholars and students of European Studies and Political Economy as well as those studying Political Science Economics Sociology and Business Studies **Handbook of Critical Policy Studies** Frank Fischer,Douglas Torgerson,Anna Durnová,Michael Orsini,2015-12-18 Critical policy studies as illustrated in this Handbook challenges the conventional approaches public policy inquiry But it offers important innovations as well in particular its focus on discursive politics policy argumentation and deliberation and interpretive modes of analysis

The Rent Curse Richard M. Auty,Haydn I. Furlonge,2019 This book compares models of low rent and high rent development to explain the divergent growth of regions and to query the continued prioritization of industrialization over agriculture and export services as the engine of economic prosperity **The Discourse of Neoliberalism** Simon Springer,2016-07-29 Why should we be worried about neoliberalism if we are not able to fully appreciate its deleterious effects How can we fully appreciate its intricacies and power without attending to and seeking to potentially reconcile the various critical theorizations of how it actually operates The Discourse of Neoliberalism offers a critical political economy meets poststructuralist perspective on the relationship between neoliberalism and power By advancing a geographical approach to understanding the discursive formations and material consequences of neoliberalism the book exposes how processes of neoliberalization are shot through with violence It argues that reading neoliberalism as a discourse better equips us to understand the power of this variegated economic formation as an expansive process of social spatial transformation that is intimately bound up with the production of poverty inequality and violence across the globe It illuminates the vital and ongoing power of neoliberalism in order to open up a critical space for thinking through how life beyond neoliberalism might be achieved **Cultural Studies and the 'Juridical Turn'** Jaafar Aksikas,Sean Andrews,2018-02-02 The relationship between culture and the law has become an emergent concern within contemporary Cultural Studies as a field but the recent focus has been largely limited to the role played by cultural representations and identity politics in the legitimation of legal discourse and policies While continuing this emphasis this collection also looks at the law itself as a cultural production tracing some of the specific contours of its function in the last three decades It argues that with the onset of neoliberal or late capitalism the law has taken on a new specificity and power leading to what we are

calling the juridical turn where the presumed legitimacy of the law makes other forms of hegemonic struggle secondary The collection not only charts the law and cultural policy as they exert their powerful if often overlooked influence on every aspect of society and culture but it also seeks to define this important field of study and demonstrate the substantial role law plays in the production of our social and cultural worlds In this trailblazing collection of contributions by leading and emerging figures in the field of cultural legal studies chapters examine various ways in which this process is manifested such as U S legislation and Supreme Court Decisions on gay marriage immigration consumer finance welfare copyright and so called victim s rights along with international comparisons from Europe and Latin America It promises to be a pathbreaking analysis of our juridically determined conjuncture This book was originally published as a special issue of Cultural Studies
