## Google Nexus 5 Manual:

**Nexus 5 Survival Guide** Toly K, 2014-01-14 The Nexus 5 is Google's first phone to natively run Android Kit Kat. As a result, the Nexus 5 is packed full of new features never before seen on any Android phone, such as a much improved Phone application, better voice searching, built-in caller ID that automatically searches the web for the phone number, and a completely redesigned text and video chat application. This guide will introduce you to these new features and show you how to use them. This book gives task-based instructions without using any technical jargon. Learning which buttons perform which functions is useless unless you know how it will help you in your everyday use of the Nexus 5. Therefore, this guide will teach you how to perform the most common tasks. Instead of presenting arbitrary instructions in lengthy paragraphs, this book gives unambiguous, simple step-by-step procedures. Additionally, detailed screenshots help you to confirm that you are on the right track. This Survival Guide also goes above and beyond to explain secret Tips and Tricks to help you accomplish your day-to-day tasks much faster. If you get stuck, just refer to the Troubleshooting section to figure out and solve the problem.

The (Unofficial) Google Nexus 5 SmartPhone Book UnofficialBooks, 2013-11-26 NOTE While this edition is good value, there is a newer edition: The Unofficial Google Nexus 5 SmartPhone Book Second Edition. The Google designed and LG manufactured Nexus 5 is the first smartphone to run the Android 4.4 KitKat operating system. If you've just bought a Nexus 5 smartphone or you're thinking about buying one, you should read this book. And if we say we like it, it's because we really do. But we're no fan boys and we don't mind giving a warts-and-all coverage where it's warranted. Now in its Second Edition, the first edition of this book attracted the following praise: I gave it five stars because it is full of information that I never expected to exist. I found the book concise and structured in a way that made it easy for me to get the information I needed. Easy to read, well illustrated, can't say much more than that. Worth the price. Grandsons were waiting for a help call but I could manage without them for a change. Book is clear and very helpful indeed. A very helpful guide to get to grips with the Nexus 5. Very helpful information in one place. Well worthwhile. Very useful book. Well written with lots of answers if you get stuck. Recommended for those of us who find technology rather baffling.
