Kathleen Gerson, Sarah Damaske, 2020-10-15 Qualitative interviewing is among the most widely used methods in the social sciences but it is arguably the least understood. In *The Science and Art of Interviewing* Kathleen Gerson and Sarah Damaske offer clear theoretically informed and empirically rich strategies for conducting interview studies. They present both a rationale and guide to the science and art of in depth interviewing to take readers through all the steps in the research process from the initial stage of formulating a question to the final one of presenting the results. Gerson and Damaske show readers how to develop a research design for interviewing, decide on and find an appropriate sample, construct a questionnaire, conduct probing interviews and analyze the data they collect. At each stage they also provide practical tips about how to address the ever present but rarely discussed challenges that qualitative researchers routinely encounter, particularly emphasizing the relationship between conducting well crafted research and building powerful social theories. With an engaging accessible style *The Science and Art of Interviewing* targets a wide range of audiences from upper level undergraduates and graduate methods courses to students embarking on their dissertations to seasoned researchers at all stages of their careers. *The Psychology of Job Interviews* Nicolas Roulin, 2017-03-27 Most people at some point in their lives experience the stress of being interviewed for a job they want. Many also face the challenge of interviewing other people. But what does the science tell us about this unique social situation? What biases are involved and how can we become aware of them? And how can job interviews be structured so that they are fair and effective? *The Psychology of Job Interviews* is the first book to provide an accessible and concise overview of what we know. Based on empirical research rather than second hand advice it discusses the strategies and tactics that both applicants and interviewers can use to make their interviews more successful from how to make a good first impression to how to decide which candidate is the best fit for the role. Illustrated with examples throughout the book guides job applicants on how best to prepare for and perform in an interview and provides managers with best practice advice in selecting the right candidate.
