Fire Smart Home Handbook Clyde Soles, 2014-04-01 As climate change continues to wreak havoc on the environment devastating wildfires both natural and manmade are increasing The figure for average acres burned has increased from almost 2 million acres in 1992 to nearly 7 million in 2012 which set a new record with an average of 165 acres burned per fire Things are heating up but global warming isn t the only problem Budgets for fire suppression have been slashed severely The number of air tankers has decreased from 44 in 2002 to just 9 in 2012 which means fast attacks on fledgling fires will grow more difficult in the future If you live in a wildland urban interface the zone between unoccupied and developed land sooner or later fire will happen Fortunately you can prepare for the worst and it doesn t have to cost a fortune This highly detailed and practical reference guide will help you live more safely in the red zone and save you time and money along the way providing multiple methods of risk mitigation along with the financial level of each action Effectively prepping your land can even enhance the scenery and increase the value of your home Learn how wildfires begin and behave

how to evaluate your property what essential tools you ll need and what they will cost how to prepare your land and home including tips on how to avoid insurance nightmares when to stay and fight when it s time to evacuate how to clean up after a fire event and more Even if you live in the middle of a suburb the information on how fires start and spread and how to deal with insurance claims will prove enlightening and helpful No one can guarantee that your house or land will survive if a major conflagration erupts but you can greatly improve your odds with this book and a little preparation Threshold Heather Suzanne Woods, 2024-05-15 Smart homes are domestic spaces outfitted with networked technology made by brands like Google Facebook Amazon and Apple However Silicon Valley purveyors are not the only important actors in smart home development Appliance makers logistics companies health and wellness conglomerates insurance companies and security franchises are all betting on the smart home in an economy that puts a premium on data Together major players in the smart home space have successfully attracted the attention and pocketbooks of millions of households by touting the virtues of ambient networked technologies as an upgrade to modern domestic life If industry predictions hold nearly half of American houses will be smart by 2024 Yet what it means to be smart is still unsettled Threshold asks and answers the question How do smart homes communicate cultural values about the role of technology in the 21st century Answering this question is time sensitive as the coming years will determine how smart homes are configured who has access to them and what they mean to their owners policy makers technology companies and others invested in these domestic digital platforms The consequences of these decisions are significant because they impact both smart home residents and society at large At present much of the research on smart homes caters either to industry experts or scientists and engineers This literature often describes or evaluates the technical capacities of the smart home or focuses on user interface and design Instead Heather Woods argues we need a sustained cultural analysis of smart homes that considers the socio technical variables gender class income disparity race criminal justice the housing market and the future of both labor and domesticity that give the smart home meaning Threshold takes up this challenge from a rhetorical perspective arguing that smart homes are lived material embodiments of the digital cultures in which they are imagined built and used Those considerations more often than not are relegated to secondary considerations when in truth they are the most pervasive and consequential factors affecting anyone participating in a smart home ecosystem Woods argues that smart homes are spatial manifestations of a phenomenon called living in digitality a cultural condition whereby users engage with technology at every moment of every day Using extensive fieldwork at smart homes throughout the USA Woods traces how smart homes urge ubiquitous computing as a normalized daily practice readying domestic spaces and their occupants for an increasingly transactional digital future that is largely controlled by corporate interests Threshold advances knowledge in three ways by 1 Offering definitional tools for identifying and evaluating immersive technologies including but not limited to the smart home 2 Identifying three distinct configurations of the smart home according to their domestic and technological functions 3 Demonstrating the productive capacity of smart

homes and smart devices to influence social life The book highlights the rhetorical force of smart domesticity for rhetorical scholars digital humanists political scientists critical theorists policy makers and residents or prospective residents of smart homes Ultimately Threshold serves as a toolkit for recognizing and responding to the persistent encroachment of digital technologies in all parts of our lives **Resources in Education** ,2001-04 **Money Management Information Source Book** Alan M. Rees,Jodith Janes,1983 The Good Retirement Guide 2023 Jonquil Lowe,2023-01-03 Inflation is at an all time high the cost of living crisis is among us with no sign of disappearing but what does this all mean for your retirement With the latest insights on inflation and cost of living investments pensions and tax The Good Retirement Guide 2023 is the essential updated guide to ensure you do not miss a step to a successful retirement Are you considering retirement but are anxious about high living costs worried about the volatile pensions industry or simply concerned about what retirement will be like This fundamental edition addresses these topics and includes new content on moving into a cashless society efficient ways to make lifetime transfers to younger generations and how to take advantage of the tax free lump sum from a defined contribution pension scheme Plan effectively save efficiently and wholly enjoy your retirement with this latest guide

Deconstructing Digital Capitalism and the Smart Society Mel van Elteren,2025-01-01 Today s critics of big online platforms tend to consider privacy breaches monopolistic practices and the deployment of surveillance technologies as the main problems Internet reformers suggest the answers to these issues reside in more and better regulations While the questions of privacy data and size are indeed important they are secondary however to a deeper set of concerns about platform ownership and control and who benefits from the current status quo This book examines these issues and offers an historical overview and in depth analysis of digital capitalism and its prevailing practices as it has become increasingly intertwined with various forms of online surveillance behavior modification and the delegation of managerial functions to algorithmic and automated systems in platform economies The approach taken extends to the wider array of data driven internet connected and automated systems that involve digital devices and technologies centered on three smart spaces the smart self the smart home and the smart city Antitrust and other regulatory measures by the European Union and the United States that are aimed at restraining platform capitalism are also discussed The focus in particular is on recent developments regarding artificial intelligence and their potentially harmful implications This is followed by a critical look at proposals for more far reaching institutional reforms revolving around the creation of forms of platform socialism that build partly on existing practices of platform cooperativism The book concludes with a diagnosis of the global situation among the competing digital empires the United States the European Union and China and considers whether or not under the present conditions any form of democratic platform socialism could materialize on a wider scale in the near future *Official Gazette of the United States Patent and Trademark Office* ,1987 *Data-Driven Smart Community Design* Keng Hua Chong,2024-11-29 This book couples data analytics with social behavioural studies and participatory design to derive deeper insights on city
