Education Research and Practice Gloria Ann Stillman,Werner Blum,Maria Salett Biembengut,2015-07-20 In this volume
cultural social and cognitive influences on the research and teaching of mathematical modelling are explored from a variety
of theoretical and practical perspectives The authors of the current volume are all members of the International Community
of Teachers of Mathematical Modelling and Applications the peak research body in this field A distinctive feature of this
volume is the high number of authors from South American countries These authors bring quite a different perspective to
modelling than has been showcased in previous books in this series in particular from a cultural point of view As well as
recent international research there is a strong emphasis on pedagogical issues including those associated with technology
and assessment in the teaching and learning of modelling Applications at various levels of education are exemplified The
contributions reflect common issues shared globally and represent emergent or on going challenges **Forthcoming**
