**Characters** Shouhui Zhao,Richard B. Jr. Baldauf,2007-10-30 One of the remarkable things about Chinese language policy over the millennia has been the power of the writing system to unite what are disparate if related spoken varieties We have already published one book on PRC language policy in this series a collection edited by Minglang Zhou that covered the full range of topics including the development of Putonghua common speech the status of minority languages and some interesting chapters on the reform of the writing system This last subject is of such complexity and importance to justify adding to the series a book going into more detail on developments in efforts to manage and cultivate the writing system in the last 50 years taking into account the rapid growth of the Chinese economy and the technological developments

associated with computers and the web It is important we feel to back up the common generalizations about language policy with detailed studies of specific topics where one can observe at close hand the plans and activities of language managers the problems they set out to solve and their successes and failures This is precisely what Zhao and Baldauf set out to do in this full account and analysis of the challenges met by recent efforts to adjust the Chinese writing system to new demands We would like to express our thanks to the authors and to the others who contributed to the production of this volume

of the characters of a story our empathy with them or suspicion of them shape the way we read it This book addresses these questions by analyzing the complex characterization in the Book of Judges paying attention to an often neglected but important area of study in the Hebrew Bible Its international group of contributors explore the implications of characterization on storytelling situating their contributions within the context of literary studies of the Hebrew Bible and offering multiple perspectives on the many and various characters one encounters in the Book of Judges Chapters examine a range of topics including the relationship between humor characterization and theology in Judges the intersection of characterization and ethics through the story of the story of Jephthah s daughter why the trickster hero Ehud disturbs interpreters and the ways in which Abimelech s characterization affects the key narrative themes of succession and kingship in his story     *Real Estate Record and Builders' Guide* ,1920
