De Rumores e Ruídos: Cartografia de Contranarrativas Antônio Carvalho, 2024-05-20 O livro *De rumores e ruídos* examina processos emergentes no campo comunicacional a partir da atuação dos novos atores do midiavivismo em oposição às narrativas empregadas pelos emissores dos meios de comunicação instituídos. Para tanto, analisa a crise crítica de acontecimentos recentes no Brasil que eclodiram com as manifestações de rua de junho de 2013, momento em que formas alternativas de informação possibilitadas pelas tecnologias digitais se evidenciam e interferem nos fluxos de trabalho da mídia tradicional. Observando-se que até os atos de 2016 houve uma polarização nas reivindicações antes múltiplas, parte-se para investigar os elementos que tornaram isso possível, bem como seus agentes e discursos, ou seja, de como se formou essa canalização para o embate em torno do impeachment, golpe da presidenta Dilma Rousseff, tendo como tema norteador o ecoado combate à corrupção. Pautada que acabou por obliterar as pautas difusas eclodidas nas ruas a partir do que ficou conhecido como as Jornadas de Junho. Tema aglutinador que converge para um país polarizado, fiador de nascente conluio entre mídia e Judiciário brasileiros, materializado na Operação Lava Jato e que desemboca de maneira fatal nos resultados das eleições presidenciais de 2018. Este livro se dirige a aqueles que se inquietam por buscar entendimento para além da narrativa hegemônica de acontecimentos recentes que produziram impactos determinantes na vida nacional e se presta, portanto, a um caráter documental, um registro linkado de contranarrativas fluído de ruídos que se transmitem na diversidade pelo contraditório a múltiplos rumores.

Optimal Operation of Integrated Energy Systems Under Uncertainties Bo Yang, Zhaojian Wang, Xinping Guan, 2023-09-06 *Optimal Operation of Integrated Energy Systems Under Uncertainties* Distributionally Robust and Stochastic Models discusses new solutions to the rapidly emerging concerns surrounding energy usage and environmental deterioration. Integrated energy systems (IESs) are acknowledged to be a promising approach to increasing the efficiency of energy utilization by exploiting complementary alternative energy sources and storages. IESs show favorable performance for improving the penetration of renewable energy sources (RESs) and accelerating low carbon transition. However, as more renewables penetrate the energy system, their highly uncertain characteristics challenge the system with significant impacts on safety and economic issues. To this end, this book provides systematic methods to address the aggravating uncertainties in IESs from two aspects: distributionally robust optimization and online operation. Presents energy scheduling considering power, gas, and carbon markets concurrently based

on distributionally robust optimization methods Helps readers design day ahead scheduling schemes considering both decision dependent uncertainties and decision independent uncertainties for IES Covers online scheduling and energy auctions by stochastic optimization methods Includes analytic results given to measure the performance gap between real performance and ideal performance **AdrenalineMoto | Street Motorcycle PU Catalog 2014** Parts-Unlimited Motorcycle Parts & Gear,LeMans Corporation - All Rights Reserved,2014-01-01 AdrenalineMoto is an authorized dealer of Parts Unlimited and claims no ownership or rights to this catalog The Parts Unlimited 2014 Street catalog is more than just a book It is designed to help you and your customers get the most out of your passion for powersports It showcases the new exciting in demand products as well as highlighting trusted favorites The well organized catalog sections make it easy to find the items you want And every part is supported with the latest fitment information and technical updates available Looking for tires See the Drag Specialties Parts Unlimited Tire catalog It has tires tire accessories and tire wheel service tools from all the top brands And for riding gear or casual wear see the Drag Specialties Parts Unlimited Helmet Apparel catalog Combine all three catalogs for the most complete powersports resource of 2014 *The Encyclopedia of Best Films* Jay Robert Nash,2019-10-23 This all inclusive A Z encyclopedia by one of the world s foremost experts on cinema provides comprehensive annotations of the best films produced from 1914 on The work offers more than 5 000 three to five star entries three stars good four stars excellent five stars masterpiece and yes author Jay Robert Nash has viewed every single one of them as well as many more that did not make the cut In addition to a precis each film s entry also includes a listing of the cast as well as the key principles involved in production from the director to the hair stylist Especially unique to this book is a rating system that helps parents determine whether or not a film is appropriate for their children Unlike the industry rating system which can be influenced by studio lobbying Nash objectively evaluates each film and confers upon it one of four recommendations for viewing recommended acceptable cautionary and unacceptable Backmatter includes a list of top films by genre i e animated drama sports mystery adventure etc as well as an annotated name index listing all persons mentioned along with their dates of birth and death Rounding out this essential volume for the film buff are over 500 still photos from the author s private collection *Fitness Professional's Handbook* Barbara A.
