

## Financial Reporting and Analysis

### Module outline and aims

In professional practice, the Chartered Secretary has to be competent in financial accounting and reporting. In public practice and in some other organisations, the Chartered Secretary can also be called upon to fulfil the role of corporate accountants. Thus, the emphasis is normally on accounting for purposes other than an audited accounting technique.

Chartered Secretaries need to understand the significance and relevance of accounting information and the process by which it is acquired. Core responsibilities also include compliance with legal and regulatory requirements, including financial statements. In the meantime, Chartered Secretaries contribute to the analysis, presentation and interpretation of corporate financial performance and results, including the implications for the organisation, shareholders and stakeholders and for effective corporate governance.

The aim of the module is to develop the knowledge and skills necessary for you to understand and supervise the execution of these professional responsibilities.

### Learning outcomes

On successful completion of this module, you will be able to:

- Describe and explain the language, concepts and use of financial accounts and reports;
- Demonstrate a sound understanding of the significance of accounting information systems for both effective financial reporting and good corporate governance and demonstrate a systematic understanding and thorough appreciation of the regulatory framework for the preparation and presentation of financial statements;
- Apply the skills necessary for the preparation and presentation of financial statements for single and group companies in compliance with legal and regulatory requirements;
- Interpret and critically analyse corporate financial accounts and reports reflecting on the limitations of both published accounts and standard analytical techniques;
- Describe and explain the relationship between financial reporting and corporate governance;
- Prepare reports and presentations relating to financial matters for the board and senior officers of organisations.
