It was a fine September night. A thin white moon rose over the valley. Five eleven-year-old, did not see the moon. He did not feel the cool September breeze blow into the kitchen, for his thoughts were fixed on a red and black blanket on the kitchen table.

The blanket was a gift from his Dad to his Granddad, a going-away gift. They said that Granddad was going away that's why they called it "going away."

But he had not really believed his Dad would send Granddad away. It then it was — the going-away gift, Dad had bought it that very morning was the last evening he and his Granddad would have with each other.

Together the old man and the young boy washed the supper dishes. Dad had gone out with the woman he was to marry. He would not be back for some time. When the dishes were finished, the old man and the boy went outside and sat under the moon.

"I'll get my harmonica and play for you," the old man said. "I'll play you some old tunes."

Video provides a powerful way to help you prove your point. When you click Online Video, you can paste in the embed code for the video you want to add. You can also type a keyword to search online for the video that best fits your document.

To make your document look professionally produced, Word provides header, footer, cover page, and text box designs that complement each other. For example, you can add a matching cover page, header, and sidebar. Click Insert and then choose the elements you want from the different galleries.

Themes and styles also help keep your document coordinated. When you click Design and choose a new Theme, the pictures, charts, and SmartArt graphics change to match your new theme. When you apply styles, your headings change to match the new theme.

Save time in Word with new buttons that show up where you need them. To change the way a picture fits in your document, click it and a button for layout options appears next to it. When you work on a table, click where you want to add a row or a column, and then click the plus sign.

Reading is easier, too, in the new Reading view. You can collapse parts of the document and focus on the text you want. If you need to stop reading before you reach the end, Word remembers where you left off - even on another device.
