Enhanced artwork program Dealing with Authorship Sarah Burnautzki, Frederik Kiparski, Raphaël Thierry, 2018-10-30

Literature and film generate symbolic as well as economic capital. As such, aesthetic productions exist in various contexts following contrasting rules. Which roles do authors and filmmakers play in positioning themselves in this conflictive relation? Bringing together fourteen essays by scholars from Germany, the USA, the UK and France, this volume examines the multiple ways in which the progressive self-fashioning of authors and filmmakers interacts with the public sphere, generating authorial postures and thus arouses attention. It questions the autonomous nature of the artistic creation and highlights the parallels and differences between the more or less clear-cut national contexts in order to elucidate the complexity of authorship from a multifaceted perspective, combining contributions from literary and cultural studies as well as film media and communication studies. *Dealing with Authorship* as a transversal venture brings together reflections on leading critics, exploring works and postures of canonical and non-canonical authors and filmmakers. An uncommon and challenging picture of authorship is explored here across national and international artistic fields that affect Africa, Europe and America. The volume raises the questions of cultural linkages between South and North, imbalances between the mainstream and the margins in an economic, literary or racial dimension and more broadly the relation of power and agency between artists, editors, critics, publics, media and markets.
