Anyone who completes the lessons in this book can have his or her web pages be among those that appear on the Internet. In fact, within the first two lessons in this book, someone with no previous HTML experience at all can have a web page ready to go online. If you like learning by doing, this is the book for you. It organizes lessons in the basics of HTML5 and CSS3 into simple steps and then shows you exactly how to tackle each step. Many of these HTML code examples are accompanied by pictures of the output produced by the code. You see how it's done, you read a clear, concise explanation of how it works, and then you immediately do the same thing with your own page. A few minutes later, you're on to the next step. Learn how to build your own web page and get it online in an instant. Format text for maximum clarity and readability. Create links to other pages and to other sites. Add graphics, color, and visual pizzazz to your web pages. Work with transparent images and background graphics. Design your site's layout and typography using CSS. Get user input with web-based forms. Publicize your site and make it search engine friendly. Test a website for compatibility with different browsers. Make your site easy to maintain and update as it grows. Use HTML5 semantic tags to better structure your pages. Create columns with CSS. Add HTML5-based video and audio to your site. Use CSS3 transforms, transitions, and animations to create great visual effects. Use HTML5's powerful form validation capability.
