## Emacs Lisp Reference Manual:

The GNU Emacs Lisp Reference Manual ,1995      **GNU Emacs LISP Reference Manual 2/2** Bil Lewis,Dan LaLiberte,Richard Stallman,2015-11-06 Most of the GNU Emacs text editor is written in the programming language called Emacs Lisp You can write new code in Emacs Lisp and install it as an extension to the editor However Emacs Lisp is more than a mere extension language it is a full computer programming language in its own right You can use it as you would any other programming language Because Emacs Lisp is designed for use in an editor it has special features for scanning and parsing text as well as features for handling files buffers displays subprocesses and so on Emacs Lisp is closely integrated with the editing facilities thus editing commands are functions that can also conveniently be called from Lisp programs and parameters for customization are ordinary Lisp variables This manual attempts to be a full description of Emacs Lisp For a beginner s introduction to Emacs Lisp see An Introduction to Emacs Lisp Programming by Bob Chassell also published by the Free Software Foundation This manual presumes considerable familiarity with the use of Emacs for editing see The GNU Emacs Manual for this basic information Generally speaking the earlier chapters describe features of Emacs Lisp that have counterparts in many programming languages and later chapters describe features that are peculiar to Emacs Lisp or relate specifically to editing This is the GNU Emacs Lisp Reference Manual corresponding to Emacs version 24.5 As Emacs Lisp became such a big project over the years we had to split this reference manual in two parts that are two separate physical books To keep it consistent with our digital manual the references and page numbers cover both physical books as it were one Therefore please note that you probably want to have both parts      *The GNU Emacs Lisp Reference Manual* Bil Lewis,Dan LaLiberte,Richard M.
