

Greek Mythology

What do some of the names of planets have in common: Mercury, Venus, Earth, Mars, Jupiter, Saturn, Uranus, Neptune? Do you know they have something in common with mermaids as well as dragons? All of them are related to stories that are handed down through history. They are based on traditions by different groups of people. Planet names, mermaids, and dragons are related to myths.

Myths are traditional stories usually related to the early history of a group of people or a culture. Myths explain some natural or social phenomenon. Most of them involve supernatural beings and events. It is likely you have heard many stories which are considered myths.

Myths are NOT true. They are make-believe and imaginary stories. They may be related to religious beliefs and rituals, used to explain things like fire, the changing seasons, lightning and thunder, or parts of animals, like how an elephant got its trunk. They are also used to teach human's how to behave and live with each other. The characters in myths include gods, goddesses, monsters, and many heroes.

Myths have been created by the Native Americans, Egyptians, Romans, Indians, and other cultures and religions. However, ancient Greek mythology is most often thought of when the subject is related to myths. Their stories about the ancient Greek gods are still popular and told throughout the world today.

Ancient Greece

Ancient Greece came before the Roman Empire, which was influenced by the Greeks. In fact, Ancient Greece is the foundation of most Western culture today, including government, philosophy, science, art, mathematics, literature, and even sports. The period of Ancient Greece lasted between 800 BC and 146 BC, which was when Greece was conquered by the Romans.

Many of the Greeks believed in the myths helping them to understand, during that time-period, the environment, the passing of time, and about the world. They were interested in their origin just like people of today, and for Ancient Greece, the myths were used for advice, information, a way to maintain contact with ancestors, and for educational purposes. Of course, there were also people who did not believe in them and thought of them as fairy tales.

Mostly during their civilization, the Greeks worshipped the gods and goddesses in relation to their religious beliefs. Greek mythology includes all the stories and tales about the gods and goddesses. The gods and goddess would appear in different stories, but their personalities and powers would not change.
