A Man of Influence J. L. Granatstein, 1981 **The Milne Papers** John Beeler, 2020-11-26 Alexander Milne was the pre eminent naval administrator of the Victorian Royal Navy spending eighteen years at the Admiralty between 1847 and 1876 over six of them as First Naval Lord His administrative career coincided exactly with the greatest technological upheaval in warfare at sea since sails supplanted oars and he played an important role in almost every step of the Navy s transformation from sail to steam wood to iron and in the equally critical processes of devising a modern system of recruiting and training enlisted personnel and evolving a coherent strategy suitable for a steam powered fleet This collection is drawn from a rich documentary record of Milne s and the Board s labours during the late 1840s and 1850s It also encompasses Milne s earlier sea service furnishing a unique glimpse of the maritime policing operations of the Navy during the Pax Britannica

Library Linda Hall Library, 1986 **Second Front** Marc Milner, 2025-05-13 A revelatory new account of the Second World War and how bitter competition between the Allies would shape the postwar world In June 1944 an Allied army of British American and Canadian troops sought to open up a Second Front in Normandy But they were not only fighting to bring the Second World War to an end After decades of Anglo American struggle for dominance they were also contending with one another to determine who would ascend to global hegemony once Hitler s armies fell Marc Milner traces this bitter rivalry as it emerged after the First World War and evolved during the fragile peace which led to the Second American media and domestic politics dominated the Allied powers military strategy overshadowing the contributions of Britain and the remarkably critical role played by Canada in establishing this Second Front Culminating in the decisive Normandy campaign Milner shows how the struggle for supremacy between Churchill and Roosevelt changed the course of the Second World War

and how their rivalry shaped our understanding of the Normandy campaign and the war itself **Outposts of Empire**

America's First General Staff John Trost Kuehn, 2017-10-15 The General Board of the Navy in existence from 1900 to 1950 was a uniquely American and unparalleled strategic planning organization As John T Kuehn shows this was the United States first modern general staff in peacetime as well as the nexus for naval thought and strategic thinking The Board's creation reflected the reformist spirit of the era that also gave birth to the Army War College the Army General Staff and the Chief of Naval Operations As such the General Board and its mission also reflected an attempt to reconcile the primacy of civilian control of the military with an increasing need for more formal military and naval planning establishments processes and methods Thus the General Board's very name reflected the idea shared by both corporate America and naval tradition that challenges and problems could be met with special temporary organizational bodies By the 1920s the General Board had

become a permanent feature of the Navy and was regarded as the premier strategic think tank for advice to the Secretary of the Navy. Evolving over the course of its existence, the Board developed into a bona fide institutional component atop the service's hierarchy. Kuehn highlights how this small body, wielding immense influence over the span of its organizational life, was an innovative, progressive, and productive force for the security of the United States in peace and for naval success in war. The service of the men comprising the Board is little known, but their collaborative ethos should serve as a model for their modern counterparts. Kuehn's organizational history of the General Board provides context on the complexities and turbulence involved in building the modern Navy that transitioned over time from coal and sail to nuclear-powered warships. America's First General Staff offers the first single-volume history of the General Board of the Navy as well as an analysis of the U.S. Navy during periods of great change in both peace and war.
