Social Work Ethics Eileen Gambrill,2017-05-15 This collection of essays highlights ethical issues in social work which are often overlooked as well as recurring clashes that influence how they play out for example among different values and related moral judgements A wide range of ethical issues are addressed such as the types of technologies incorporated into social work issues raised by the common position of social workers as double agents required to carry out state mandates while also honoring obligations to clients and issues concerning the distribution of scarce resources These topics are integrally related to other often neglected concerns such as harming in the name of helping the ethics of claims making regarding what is true and what is not and related concerns regarding empowerment and social justice This collection which includes essays from an array of professions and disciplines is designed to bring these neglected topics to the attention of readers and to offer suggestions for addressing them in a manner that is faithful to obligations described in social work codes of ethics **Classical Liberalism and the Jewish Tradition** Edward Alexander,2017-10-24 The incongruence if not antagonism between modern liberalism and the Jewish sense of the world has been most notably articulated by Lionel Trilling Certainly the imaginative limitations and intellectual smugness he discerned in his own ideological party found a parallel in his view in the embrace of liberalism by the American Jewish community The consequences of that embrace entail both a superficial intellectual and religious culture and a misunderstanding of the social and political dimensions of Judaism In **Classical Liberalism and the Jewish Tradition** Edward Alexander engages in a wide ranging exploration of the roots of the

fundamental antagonism between liberalism and Jewish tradition from the nineteenth century to the present day Central to Alexander's arguments is his incisive critique of the distortion of modern Judaism as a child of the Enlightenment and the notion that specifically Jewish concerns whether with Zionism the Holocaust or sacred and secular writings constitute a narrow and parochial betrayal of liberal interests The chapters are divided among political religious and literary subjects The opening chapter on Mill's ambivalent attitude toward the Jews establishes terms of conflict between Judaism and liberal secularism and universality as do chapters on the antisemitism of Thomas Arnold and Marx and the more ambiguous Jewish self identification of Disraeli Alexander examines such disparate topics as the hostility to the idea of a Jewish state on the part of numerous Israeli intellectuals the disdain among liberals toward the specifically Jewish dimension of the Holocaust and the capitulation of the Modern Language Association to the anti Zionism of Edward Said Turning to the uneasy status of Jewish religious texts and secular literature as sources of cultural revitalization Alexander deals with the attempt by the Israeli scholar Adin Steinsaltz to bring the Talmud to the attention of contemporary Jewish readers and includes a chapter on his nineteenth century precursor Emanuel Deutsch and his relationship to George Eliot An analysis of Ruth Wisse's efforts to establish a modern Jewish literary canon is rounded out by chapters on two of the major figures of that canon Isaac Bashevis Singer and Philip Roth While diverse in subject matter Classical Liberalism and the Jewish Tradition is consistent in its unapologetic advocacy of a Jewish point of view and in its depth of scholarship in tracing the historical roots of contemporary attitudes and ideologies
