**From Alliance to Union** Joseph A. Kéchichian, 2016-05-24 After the conservative Arab Gulf Monarchies Bahrain Kuwait Oman Qatar Saudi Arabia and the United Arab Emirates UAE joined forces on 25 May 1981 within the Gulf Cooperation Council GCC few fathomed that security requirements on and around the Arabian Peninsula would be so precarious and for so long To answer their search for permanent stability Arab Gulf rulers erected a regional alliance that sought to integrate internal and regional defences as well as strengthen their existing socio economic ties Several of the monarchies even hoped that coordination on foreign policy issues over which near unanimity existed could eventually lead to a full fledged union as envisaged in the organisation's founding charter Between 1981 and 2015 these Arab Gulf monarchies experienced major socio political transformations resulting from upheavals throughout the Arab and Muslim worlds The perceived necessity to bring about a full fledged union has come into conflict with entrenched viewpoints from regimes that value traditional military political roles and norms In this new study Joseph A Kechichian provides an evaluation of GCC States military institutions to better evaluate whether a stable alliance is capable of enduring over the next few decades and

how civilian leaders perceive the role and influence of their military officers for the task Kechichian raises fundamental questions over internal regional and international threats including an existential challenge emanating from the Islamic revolutionary government of Iran and assesses how GCC professionals may be preparing to tackle them He further elucidates on the best methods to meet security challenges not only to secure political survival but also to determine whether conservative Arab Gulf regimes can flourish outside an effective alliance The volume concludes with an examination of evolving civil military relations in the GCC States **Sustainable Prosperity in the Arab Gulf** Jarmo T.

Kotilaine,2023-08-16 Tracing the development journey of the Arabian Gulf region with a forward looking perspective this book describes how a combination of good fortune creative experimentation and determination has enabled the region to achieve prosperity Today the Arabian Gulf is well positioned to assume a pivotal role in the new global order Forced to balance an extreme climate and acute resource constraints but also an exceptional location the region s progress and prosperity have historically been precarious and vulnerable to external shocks Efforts to transcend resource dependency have typically involved proactive attempts to enable other economic activities This book argues that while conventional economic diversification is making headway the Gulf region is in fact amidst a far more holistic transformation that positions it for a pivotal role in the emerging multipolar global order It now offers globally competitive regulations and world class infrastructure at the heart of the Old World flanked by two fast growing continents It has become the hub of choice for a growing share of inter continental flows of people trade and capital and has established strong economic ties in all directions This book shows how despite many risks and challenges the region possesses the forward looking vision and necessary resilience that can finally liberate it from its long standing resource curse and a development paradigm that looks likely to provide the foundation for sustained well being in the decades ahead The scope and rigor of the book make it suitable as a reference on the Arabian Gulf and for those interested in global affairs and economic development as well as policymakers and the business community **The Gregg Shorthand Magazine** ,1917
