into the international literature on deindustrialization this study pushes scholarship beyond the bounds of political economy and cultural change to begin tackling issues of bodily health environment and historical memory in post industrial places The experiences of the men and women who were displaced by the decline and closure of Sydney Steel are central to this book Featuring interviews with former steelworkers office employees managers politicians and community activists these one on one conversations reveal both the human cost of industrial closure and the lingering after effects of deindustrialization

Green Capitalism? Hartmut Berghoff,Adam Rome,2017-04-05 At a time when the human impact on the environment is more devastating than ever business initiatives frame the quest to green capitalism as the key to humanity s long term survival Indeed even before the rise of the environmental movement in the 1970s businesses sometimes had reasons to protect parts of nature limit their production of wastes and support broader environmental reforms In the last thirty years especially many businesses have worked hard to reduce their direct and indirect environmental footprint But are these efforts exceptional or can capitalism truly be environmentally conscious Green Capitalism offers a critical historically informed perspective on building a more sustainable economy Written by scholars of business history and environmental history the essays in this volume consider the nature of capitalism through historical overviews of twentieth century businesses and a wide range of focused case studies Beginning early in the century contributors explore the response of business leaders to environmental challenges in an era long before the formation of the modern regulatory state Moving on to midcentury environmental initiatives scholars analyze failed business efforts to green products and packaging such as the infamous six pack ring in the 1960s and 1970s The last section contains case studies of businesses that successfully managed greening initiatives from the first effort by an electric utility to promote conservation to the environmental overhaul of a Swedish mining company to the problem of household waste in pre 1990 West Germany Ranging in geographic scope from Europe to the United States Green Capitalism raises questions about capitalism in different historical sociocultural and political contexts Contributors Hartmut Berghoff Ann Kristin Bergquist Brian C Black William D Bryan Julie Cohn Leif Fredrickson Hugh S Gorman Geoffrey Jones David Kinkela Roman K ster Joseph A Pratt Adam Rome Christine Meisner Rosen
