Frequently Asked Automotive Interview Questions With Answers

Automotive interview questions can range from technical and conceptual to behavioural and situational. Here are some common questions professionals in this industry can expect.

1. What do you think is the role of an automobile engineer in our company?

When interviewing for the position of an automobile engineer, go through the job description minutely. Even for the same position, responsibilities might be different in different companies. When you know what the company expects from you, framing the answer becomes easy.

Example answer: "In an automotive company like yours, an automobile engineer is responsible for the design and development of automobiles from conception to production. They ensure vehicles adhere to the prescribed safety and efficiency standards. To enhance the technical performance, software components and aesthetics of vehicles, automobile engineers also work with other professionals. Testing fuel technologies, preparing design specifications, making repairs and inspections in the after-sales care, assessing costs, are all part of the job. Research and innovation are the key criteria for this position."
