A Galileo Forgery Horst Bredekamp, Irene Brückle, Paul Needham, 2014-07-28 Galileo's Volume III is perhaps without peer in the history of the book. In this work historians in various fields revise the results they presented in the first two volumes which focused on the New York copy of Sidereus Nuncius written in 1610. The analysis of this book was conceived as a uniquely multidisciplinary and cooperative undertaking and many of its findings remain valid. Yet the subject of analysis proved to be the work of an international group of forgers. Volume III describes the chronology and methods by which the discovery of forgery was made a veritable watershed moment in the continuing struggle between the ever more refined methods of forgers and new methods used to apprehend them. Ultimately the work also provides insight into the psychology of specialists who research themselves in order to prevent similar errors in the future. *Federal Register*, 2014. *The Economist*, 1843. *SEC Docket* United States. Securities and Exchange Commission, 2013. *The Responsibility to Protect and the International Criminal Court* Serena Sharma, 2015-12-22 This book provides an account of how the responsibility to protect R2P and the International Criminal Court ICC were applied in Kenya. In the aftermath of the disputed presidential election on 27 December 2007 Kenya descended into its worst crisis since independence. The 2007/08 post election crisis in Kenya was among the first situations in which there was an appeal to both the responsibility to protect and a responsibility to prosecute. Despite efforts to ensure compatibility between R2P and the ICC the two were far from coherent in this case as the measures designed to protect the population in Kenya undermined the efforts to prosecute perpetrators. This book will highlight how the African Union sponsored mediation process effectively brought an end to eight weeks of bloodshed while simultaneously entrenching those involved in orchestrating the violence. Having secured positions of power politicians bearing responsibility for the violence set out to block prosecutions at both the domestic and international levels eventually leading the cases against them to unravel. As this book will reveal by utilising the machinery of the state as a shield against prosecution the Government of Kenya reverted to an approach to sovereignty that both R2P and the ICC were specifically designed to counteract. This book will be of interest to students of the Responsibility to Protect humanitarian intervention African politics war and conflict studies and IR Security Studies in general. *The Market World and Chronicle*, 1914.

Latham at Large Mark Latham, 2015-03-02 Mark Latham is by his own admission the most outspoken rebellious thoroughly uncontrollable former leader in Labor Party history. In these brilliantly written opinion pieces Latham pulls no punches as he scrutinises the Australian political landscape looking at everything from climate change to Clive Palmer to what went wrong with Rudd Gillard and what's now wrong with Abbott. Beyond politics Latham dabbles in his other great interests such as critiquing the modern media and explaining his fascination with horse racing. His hilarious Henderson Watch columns and other satirical writing also feature in Latham at Large. Mark Latham has a formidable intellect and a forensic ability to get to the bottom of things. This is an entertaining thought provoking sometimes scathing often humorous
