Gamoran,2008-04-01 The No Child Left Behind Act NCLB is the latest in more than two decades of federal efforts to raise
educational standards and an even longer stream of initiatives to improve education for poor children What lessons can we
draw from these earlier efforts to help NCLB achieve its goals In Standards Based Reform and the Poverty Gap leading
scholars in sociology economics psychology and education policy take on this critical question Armed with the latest data and
up to date research syntheses the authors show that standards based reform has had some positive effects particularly in the
area of teacher quality Moreover some of the critics greatest fears have not been realized for example retention rates have
not shot upward Yet the overall pace of improvement has been slow owing in part to poor implementation Based on these
findings the contributors offer recommendations for the implementation and impending reauthorization of NCLB These
proposals such as national testing and a rethinking of achievement targets are sure to be at the center of the upcoming
debate Contributors include Thomas Dee Laura Desimone George Farkas Barbara Foorman Brian Jacob Robert M Hauser
