Gary A. Tobin, Dennis R. Ybarra, 2008-07-31 School textbooks in Iran Saudi Arabia Egypt and elsewhere in the Arab and  
Muslim worlds are filled with anti Western and anti Israel propaganda Most readers will be shocked to discover that history  
and geography textbooks widely used in America s elementary and secondary classrooms contain some of the very same  
inaccuracies about Jews Judaism and Israel Did you know that there is no record of any important Jewish contribution to the  
sciences World Civilizations Thomson Wadsworth Or that Christianity was started by a young Palestinian named Jesus The  
World Scott Foresman Pearson Supplemental materials and other classroom influences are even worse The Trouble with  
Textbooks exposes the poor scholarship and untruths in textbooks about Jews and Israel The problems uncovered in this  
ground breaking analysis are instructive and illustrate the need for reform in the way textbooks are developed written  
marketed and distributed Substitute another area how we teach American history Western civilization or comparative  
religion and we have another equally intriguing case study The Trouble with Textbooks shows what can go terribly wrong in  
discussing religion geography culture or history and in this case all of them The Trouble with Textbooks tells a cautionary  
tale for all readers whatever their background of how textbooks that Americans depend on to infuse young people with the  
values for good citizenship and to help acculturate students into the multicultural salad that is American life instead  
disparage some groups and teach historical distortions With millions of young people using these textbooks each year the  
denigration of some should be a concern for all     **World Geography Today, Grades 9-12 Graphic Organizer Activities**
