Home Builders Manual for Land Development (2nd Rev. Ed.). ,1958 Home Builders Manual for Land Development ,1953 **All-weather Home Building Manual** NAHB Research Foundation,1976 **Land Development for Civil Engineers** Thomas R. Dion,2002-02-21 Thomas Dion s Land Development has become a standard reference for the engineering information needed in site development This revised edition brings the work completely up to date with current practices and procedures **Bulldozer** Francesca Russello Ammon,2016-04-26 Although the decades following World War II stand out as an era of rapid growth and construction in the United States those years were equally significant for large scale destruction In order to clear space for new suburban tract housing an ambitious system of interstate highways and extensive urban renewal development wrecking companies demolished buildings while earthmoving contractors leveled land at an unprecedented pace and scale In this pioneering history Francesca Russello Ammon explores how postwar America came to equate this destruction with progress The bulldozer functioned as both the means and the metaphor for this work As the machine transformed from a wartime weapon into an instrument of postwar planning it helped realize a landscape altering culture of clearance In the hands of the military planners politicians engineers construction workers and even children s book authors the bulldozer became an American icon Yet social and environmental injustices emerged as clearance projects continued unabated This awareness spurred environmental preservationist and citizen participation efforts that have helped to slow though not entirely stop the momentum of the postwar bulldozer **Starting and Managing a Small Building Business** John R. Office of the Administrator,1950 The Starting and Managing Series United States. Small Business Administration,1962 Housing the North American City Michael Doucet,John C. Weaver,1991-08-06 Doucet and Weaver begin this empirical analytical and narrative study with an analysis of the evolution of land development as an enterprise and continue with an examination of house design and construction practices the development of the apartment building and an account of class and age as they relate to housing tenure They also relate developments in Hamilton to the current state of urban historiography using their case study to resolve discrepancies and contradictions in the literature Among the major themes the authors deal with is a controversial exploration of what they see as a central North American urge the desire to own a home Other themes include the social allocation of urban space the quality and affordability of housing the increased interest of large corporations in the land development and financial service industries and a comparative analysis of housing in Canada and the United States The authors have drawn on civic and business records dating from the early nineteenth

century to the latest planning data Combining this information with their comprehensive analysis Doucet and Weaver show that current housing problems and potential solutions are better understood when seen as part of a historical process They provide a critical assessment of the ways in which contemporary society produces shelter and question the use of technical innovations alone to resolve housing crises
