### Accounting Concepts and Assumptions

1. **Economic Entity Concept** - presumes that economic events can be identified specifically with an economic entity.
2. **Going Concern Assumption** - in the absence of information to the contrary, it is anticipated that a business entity will continue to operate indefinitely.
3. **Monetary Unit Assumption** - states that financial statement elements should be measured in terms of the United States dollar.
4. **Historical Cost Principle** - states that asset and liability measurements should be based on the amount given or received in the exchange transaction.
5. **Realization Principle** - revenue should be recognized when the earnings process is virtually complete and collection is reasonable assured.
6. **Matching Principle** - expenses are recognized in the same reporting period as the related revenues.
7. **Full-Disclosure Principle** - any information useful to decision makers should be provided in the financial statements, subject to the cost effectiveness constraint.
8. **Periodicity** - the life of a company can be divided into artificial time periods to provide timely information to external users.
9. **Conservation** - is a justification for some accounting practices, not a desired qualitative characteristic financial information.
10. **Relevance** - to be useful decision making, information should possess the qualities of relevance and faithful representation.
11. **Faithful Representation** - means agreement between a measure and a real-world phenomenon that measure is supposed to represent.
12. **Comparability** - accounting information should be comparable across different companies and over different time periods.
13. **Verifiability** - implies a consensus among different measurers.
14. **Consistency** - permits valid comparisons between different periods.
15. **Timeliness** - information that is available to users early enough to allow its use in the decision process.
16. **Reliability** - the extent to which information is verifiable, representationally faithful, and neutral.
17. **Materiality** - if a more costly way of providing information is not expected to have a material effect on decisions made by those using the information, the less costly method may be acceptable.
18. **Industry Practice** - when accounting standards requires firms in a given industry to use accounting principles different from the norm for most companies.
19. **Cost Effectiveness** - the perceived benefit of increased decision usefulness exceeds the anticipated cost of providing that information.
