REI to Lego we learn that design isn't merely about style and form. The heart of design is rethinking the way products and services work for customers in real life. Greene explains how Porsche pit its designers against each other to create its bestselling Cayenne SUV. Clif listened intently to customers resulting in the industry changing. Luna energy bar OXO paid meticulous attention to the details turned its LiquiSeal mug from an abysmal failure into one of its greatest successes. LEGO started saying no to its designers saving its brick business in the process. Greene shows how important it is to build a culture in which design is more than an after the fact concern it's part of your company's DNA. Design matters at every stage of the process. It isn't easy and it increases costs but it also boosts profits sometimes to a massive extent. In an increasingly competitive marketplace design represents the best chance you have of transcending your competitors. *iPod and iTunes QuickSteps* Eliot Van Buskirk, John Alderman, 2005-10-25 The best selling full color QuickSteps series now covers the world's favorite MP3 player.
