Municipal Register of the City of Waterbury Waterbury (Conn.), 1903      **The Great Rent Wars** Robert M. Fogelson, 2013-10-15 Written by one of the country's foremost urban historians The Great Rent Wars tells the fascinating but little known story of the battles between landlords and tenants in the nation's largest city from 1917 through 1929. These conflicts were triggered by the post-war housing shortage which prompted landlords to raise rents drove tenants to go on rent strikes and spurred the state legislature a conservative body dominated by upstate Republicans to impose rent control in New York a radical and unprecedented step that transformed landlord-tenant relations. The Great Rent Wars traces the tumultuous history of rent control in New York from its inception to its expiration as it unfolded in New York Albany and Washington D.C. At the heart of this story are such memorable figures as Al Smith Fiorello H. La Guardia and Oliver Wendell Holmes as well as a host of tenants landlords judges and politicians who have long been forgotten. Fogelson also explores the heated debates over landlord-tenant law housing policy and other issues that are as controversial today as they were a century ago.

Congressional Record United States. Congress, 1994      *Rethinking the Economics of Land and Housing* Josh Ryan-Collins, Toby Lloyd, Laurie Macfarlane, 2017-02-28 Why are house prices in many advanced economies rising faster than incomes? Why isn't land and location taught or seen as important in modern economics? What is the relationship between the financial system and land? In this accessible but provocative guide to the economics of land and housing the authors reveal how many of the key challenges facing modern economies including housing crises financial instability and growing inequalities are intimately tied to the land economy. Looking at the ways in which discussions of land have been routinely excluded from both housing policy and economic theory the authors show that in order to tackle these increasingly pressing issues a major rethink by both politicians and economists is required.
