 Peace and Conflict Studies provides a critical analysis of faith and religious institutions in peacebuilding practice and
 pedagogy The work captures the synergistic relationships among faith traditions and how multiple approaches to conflict
 transformation and peacebuilding result in a creative process that has the potential to achieve a more detailed view of peace

 religion in conflict scenarios *Peace on Earth* The Role of Religion in Peace and Conflict Studies offers an alternate view that
 suggests religious organizations play a more complex role in conflict than a simply negative one Faith based organizations
 and their workers are often found on the frontlines of conflict throughout the world conducting conflict management and
 resolution activities as well as advancing peacebuilding initiatives **Recreational Disturbance of Shorebirds in**
Tropical Asia Priyan Perera, Sumudu Marasinghe, Greg D. Simpson, David Newsome, 2022-09-16 Much of that growing
 demand for coastal recreation and tourism has focused on countries in South and Southeast Asia in the tourism megaregion
 that this book refers to as Tropical Asia As such the recreational disturbance of shorebirds in Asia is a serious conservation
 issue at a time when populations of both migratory and non migratory species of shorebirds are threatened and declining
 because of the loss of coastal habitat and increased human disturbance Despite global awareness about the impacts that the
 growth of coastal recreation and tourism across Tropical Asia is likely to be having on threatened and endangered migratory
 and resident shorebird species of the coastal zones of the East Asian Australasian Flyway less than 3% of the published peer
 reviewed research into the recreational disturbance of shorebirds addresses coastal zones of Tropical Asia This situation
 points to a significant knowledge gap regarding the impacts of human recreation on shorebirds in the Tropical Asian region

In contrast almost three quarters of the peer reviewed articles that report recreational disturbance research and management strategies focus on coastal zones in North America 36% Oceania 20% and Europe 20% For those reasons the quantitative systematic literature review and research case study from Sri Lanka reported in this book provide a call to action and recommendations for both management approaches grounded in the international literature and a research agenda that should be implemented in the coastal zones of Tropical Asia
