*Adaptive Management of Social-Ecological Systems* Craig R. Allen, Ahjond S. Garmestani, 2015-04-25 Adaptive management is an approach to managing social ecological systems that fosters learning about the systems being managed and remains at the forefront of environmental management nearly 40 years after its original conception Adaptive management persists because it allows action despite uncertainty and uncertainty is reduced when learning occurs during the management process Often termed learning by doing the allure of this management approach has entrenched the concept widely in agency direction and

statutory mandates across the globe This exceptional volume is a collection of essays on the past present and future of adaptive management written by prominent authors with long experience in developing implementing and assessing adaptive management Moving forward the book provides policymakers managers and scientists a powerful tool for managing for resilience in the face of uncertainty *Leading from the North* Ruth Wallace, Sharon Harwood, Rolf Gerritsen, Bruce Prideaux, Tom Brewer, Linda Rosenman, Allan Dale, 2021-09-20 *Leading from the North* aims to improve public dialogue around the future of Northern Australia to underpin robust and flexible planning and policy frameworks A number of areas are addressed including social infrastructure governance systems economic business and regional development climate and its implications the roles and trends in demography and migration in the region This book not only speaks to the issues of development in Northern Australia but also other regional areas and examines opportunities for growth with changing economies and technologies The authors of this book consist of leading researchers academics and experts from Charles Darwin University The Australian National University James Cook University the Australian Institute of Marine Science and many other collaborative partners Many of the authors have first hand experience of living and working in Northern Australia They understand the real issues and challenges faced by people living in Northern Australia and other similar regional areas Backed by their expertise and experience the authors present their discussions and findings from a local perspective

**Conflict, Negotiations and Natural Resource Management** Maarten Bavinck, Amalendu Jyotishi, 2014-10-17 Conflicts over natural resources abound in India where much of the population is dependent on these resources for their livelihoods Issues of governance and management are complicated by the competing claims of parallel legal systems including state customary religious project and local laws Whereas much has been written about property rights this unique collection takes a legal anthropological perspective to explore how the coexistence and interaction between multiple legal orders provide bases for claiming property rights It examines how hybrid legal institutions have developed over time in India and how these impact on justice in the governance and distribution of natural resources The book brings together original case studies that offer fresh perspectives on the governance of forests water fisheries and agricultural land in a diverse range of social and spatial contexts This brand new research provides a timely and persuasive overview of the fundamental role of parallel legal systems in shaping how people manage natural resources It will be of interest to scholars and practitioners of environmental law property law environmental politics anthropology sociology and geography **Cultural Sustainable Tourism** Uglješa Stankov, Sofia-Natalia Boemi, Sahar Attia, Stella Kostopoulou, Nabil Mohareb, 2019-04-23 This book includes research papers submitted to and presented during the first international conference on Cultural Sustainable Tourism CST that was held in Thessaloniki Greece in November of 2017 Discussing complex relations between Culture tourism and the role of planners and architects in their maintenance this conference was jointly organized by IEREK International Experts for Research Enrichment and Knowledge Exchange and Aristotle University of Thessaloniki The conference was an attempt to shed a light

on the significance of Culture and Heritage as two important factors attracting tourists and promoting economic growth and convey civilizations through tourism Themes covered in this book give an overview on current research and topics of discussion that focus on Cultural sustainable tourism through several sections The first section titled Art Architecture and Culture discusses urban regeneration as a road to the preservation of cultural and tourist destinations and the importance of understanding and benefitting from our heritage to allow for modern day improvements Heritage Tourism the section 2 of the book is more focused on offering nontraditional solutions and management plans to sustain cultural tourism and improve quality of life around historically significant areas The third section on the City and Rural Tourism follows by providing sustainable strategies to attract tourists and promoting the use of existing resources The last and final section with the title of Sustainable Tourism Development and Environmental Management maneuvers around the different yet common environmental issues existing today and proposes new and innovative solutions for their elimination Presenting a wide range of topics in chapters this book provides the scientific community with a collection of unique and enlightening literature

*Conflicts over Natural Resources in the Global South* Maarten Bavinck,Lorenzo Pellegrini,Erik Mostert,2014-01-15 Inhabitants of poor rural areas in the Global South heavily depend on natural resources in their immediate vicinity Conflicts over and exploitation of these resources whether it is water fish wood fuel minerals or land severely affect their livelihoods The contributors to this volume leave behind the polarised debate previously surround Small-Scale Fisheries in Europe: Status, Resilience and Governance José J. Pascual-Fernández,Cristina Pita,Maarten Bavinck,2020-04-28 This book offers a comprehensive account of the status and dynamics of people participating in the small scale fisheries SSF of Europe It covers the situation of SSF in 25 coastal countries thereby providing a portrait of almost every coastal country on the continent and analyzing the recent evolution of the sector Small scale fisheries are argued to be extremely important in Europe as they provide employment and welfare while increasing food sovereignty and maintaining communities in coastal areas The recent worldwide focus on SSF derives from their environmental sustainability which distinguishes many of their activities from those of large scale fisheries This book analyses the diversity of SSF and shows how fishing communities have sometimes developed successful governing models demonstrating social and economic resilience While the book emphasizes the strengths of SSF and the synergies that occur with other marine sectors it also presents cases of failure in which collective action and policy have actually contributed to a weakening of the sector In this context the book shows how governmental policies toward SSF vary considerably from country to country in a way that is not entirely consistent with European policies
