Total Operations Solutions Ron Basu, J. Nevan Wright, 2006-08-11. *Total Operations Solutions* builds on concepts that were introduced in *Total Manufacturing Solutions* Basu and Wright 1997. It demonstrates how this holistic approach of operational excellence driven by a self assessment methodology can be applied equally to manufacturing, service or public sectors. The text covers an implementation programme to demonstrate how to put the methodology into practice. A differentiating feature of the approach will be a critical update, impact analysis and comparison with new developments such as e-Business, outsourcing, Six Sigma, EFQM and ISO 9000:2000. It is a step by step guide for the application of the appropriate tools to the improvement process. *Total Operations Solutions* could be used as an essential handbook for all employees in a Six Sigma programme and provide a better understanding of basic tools and techniques to help them to support a quality improvement initiative and sustain a strong competitive position.

The International Conference on Production Research has a good tradition. The first Conference was held in Birmingham 1971 with 61 participants. With respect to the decision that the

Conference should be held every second year by this time the Conference has been held in the following countries
 Birmingham 1971 UK Copenhagen 1973 Denmark Amhurst 1975 USA Tokyo 1977 Japan Amsterdam 1979 The Netherlands
 Novi Sad 1981 Yugoslavia Windsor 1983 Canada Stuttgart 1985 Germany and the next Conference will take place in
 Cincinnati 1987 USA The number of submitted abstracts and papers was continuously increasing such that the Programme
 Committee of this actual 8th Conference on Production Research has been forced to introduce a further refereeing procedure
 Each submitted abstract was presented to at least two referees This resulted not only in a reduction of the number of
 presented full papers and poster contributions but as the Programme Committee and the Editors hope it led also to a
 considerable increase in the scientific quality of this 8th International Conference on Production Research The preceding
 conference in Windsor Canada was dedicated to the topic Production Research as a Means of Productivity Improvement We
 don't believe that this statement has become untrue in the meanwhile
