Hammering,2024-08-15 The lives of the men depicted in *Perilous Wagers* take place in the squalor of Tokyo's old day laborer district San ya where they can be found eking out a living from occasional construction work and welfare handouts permanently displaced from their hometowns to metropolitan Tokyo Although San ya has nearly vanished during the past twenty years its import persists as a black market where its small population of male day laborers can be contracted for the most undesirable of tasks without consideration for their health or safety In this context Hammering's book examines classic ethnographic themes of labor exchange value honor shame temporality desire gender and personhood It explores how one group of day laborers embodied a transgressive masculinity intimately intertwined with honorable mobster values of old and how they created dignity and sociality under abject conditions of life *Perilous Wagers* tracks these underdog values across construction sites non profit organizations hospitals bunkhouses and illegal gambling dens giving imaginative life to a stigmatized forgotten social world

The Sense and Sensibility of Madness Doreen Bauschke,Anna Klambauer,2018-11-05 This volume explores the intriguing ontological ambiguities of madness in literature and the arts Despite its association with a diseased abnormal mind there can be much sense and sensibility in madness Daring to break free from the dictates of normalcy madwomen and madmen disrupt the status quo Yet as they venture into uncharted or prohibited terrain they may also unleash the liberatory and transformative potential of unrestrained madness Contributors are Doreen Bauschke Teresa Bell Isil Ezgi Celik Terri Jane Dow Peter Gunn Anna Klambauer Rachel A Sims and Ruxanda Topor *Knowledge-Based Intelligent Information and Engineering Systems* Vasile Palade,2003-08-28 During recent decades we have witnessed not only the introduction of automation into the work environment but we have also seen a dramatic change in how automation has influenced the

conditions of work While some 30 years ago the addition of a computer was considered only for routine and boring tasks in support of humans the balance has dramatically shifted to the computer being able to perform almost any task the human is willing to delegate The very fast pace of change in processor and information technology has been the main driving force behind this development Advances in automation and especially Artificial Intelligence AI have enabled the formation of a rather unique team with human and electronic members The team is still supervised by the human with the machine as a subordinate associate or assistant sharing responsibility authority and autonomy over many tasks The requirement for teaming human and machine in a highly dynamic and unpredictable task environment has led to impressive achievements in many supporting technologies These include methods for system analysis design and engineering and in particular for information processing for cognitive and complex knowledge 1 engineering
