interested in anthropology archaeology and the history of medicine Bog Bodies R. C. Turner, Rick C. Turner, Rob G. Scaife, 1995 Archaeology *The Hammerum Burial Site* Ulla Mannering, Tinna Mobjerg, Lise RAeder Knudsen, Hans Rostholm, 2019-09-02 The Hammerum Burial Site is the story of a burial site told by more than 20 academics a fascinating combination of different archaeological and scientific studies analyzing individuals objects and context from different angles The site was named after the small modern day town of Hammerum 5 km east of Herning in the central part of Jutland Denmark As early as 1993 the museum investigated this burial site where seven inhumation graves emerged within a small area most of which turned out to be empty of finds Three of the graves did turn out however to contain well preserved organic material so they were removed as block samples in large wooden crates with a view to later excavation Thanks to a grant in 2009 from the Danish Cultural Agency s special pool for the conservation of objects of unique national importance the ENB pool a collaboration between the museum the Danish National Research Foundation Centre for Textile Research and the Conservation Centre in Vejle began These analyses show that grave 83 known as the Hammerum girls grave was a sensation All that remain of the deceased was her hair and her dress but it was the best preserved Danish Iron Age textile from an inhumation grave Therefore it offers an unique opportunity to analyse an object which in most cases has disappeared The analysis tells us an extraordinarily nuanced archaeological story of daily life and of pan European slow fashion a dress used in everyday life produced by carefully choosing fine fibres which together with the coiffure refers to a style recognizable throughout Europe and worn by a mobile well groomed well connected Iron Age female Moreover the preserved organic material permits us a rare glimpse of the grief of the bereaved We can see how they carefully wrapped the Hammerum Girl in skin and put blueberry twigs under her head before laying her to rest an act of compassion and mourning Woven into the Earth Else Ostergaard, 2003-05-01 One of the century s most spectacular archaeological finds occurred in 1921 a year before Howard Carter stumbled upon Tutankhamun s tomb when Poul Norlund recovered dozens of garments from a graveyard in the Norse settlement of Herjolfsnaes Greenland Preserved intact for centuries by the permafrost these mediaeval garments display remarkable similarities to western European costumes of the time Previously such costumes were known only from contemporary illustrations and the Greenland finds provided the world with a close look at how ordinary Europeans dressed in the Middle Ages Fortunately for Norlund s team wood has always been extremely scarce in Greenland and instead of caskets many of the bodies were found swaddled in multiple layers of cast off clothing When he wrote about the excavation later Norlund also described how occasional thaws had permitted crowberry and dwarf willow to establish themselves in the top layers of soil Their roots grew through coffins clothing and corpses alike binding them together in a vast network of thin fibers as if he wrote the finds had been literally sewn in the earth Eighty years of technical advances and subsequent excavations have greatly added to our understanding of the Herjolfsnaes discoveries Woven into the Earth recounts the dramatic story of Norlund s excavation in the context of other Norse textile finds in Greenland It then

describes what the finds tell us about the materials and methods used in making the clothes The weaving and sewing techniques detailed here are surprisingly sophisticated and one can only admire the talent of the women who employed them especially considering the harsh conditions they worked under While Woven into the Earth will be invaluable to students of medieval archaeology Norse society and textile history both lay readers and scholars are sure to find the book s dig

narratives and glimpses of life among the last Vikings fascinating **Historical Dictionary of the Gypsies (Romanies)**
