

Short exercises for Murach's HTML and CSS (5th edition)

Each of these short exercises requires a design and layout of the page and development skills and can be completed in 15 to 30 minutes. I will explain:

Guidelines for doing the short exercises

1. Review each task step by step. I will give you all the details. Don't miss anything that may be important.
2. Don't try to copy and paste code from the book. Read the code and try to understand it as you go along. (You're already doing it.)
3. Don't use the book as a guide for coding.
4. All pages doing the same thing should look alike. Don't try to do it all in one page. Use as many pages as you need.
5. Review each short exercise in isolation. If you're stuck, look at the code. Don't try to do it all in one page. Use as many pages as you need. I will give you all the details. Don't miss anything that may be important. I will explain the code. Don't try to copy and paste code from the book. Read the code and try to understand it as you go along. (You're already doing it.)
