Zeff, 2015-03-26 The International Accounting Standards Board IASB and its International Financial Reporting Standards IFRSs have acquired a central position in the practice and regulation of financial reporting around the world. As a unique instance of a private sector body setting standards with legal force in many jurisdictions, the IASB's rise to prominence has been accompanied by vivid political debates about its governance and accountability. Similarly, the IASB's often innovative attempts to change the face of financial reporting have made it the centre of numerous controversies. This book traces the history of the IASB from its foundation as successor to the International Accounting Standards Committee IASC and discusses its operation, changing membership and leadership, the development of its standards and their reception in jurisdictions around the world. The book gives particular attention to the IASB's relationships with the European Union, the United States and Japan, as well as to the impact of the financial crisis on the IASB's work. By its in-depth coverage of the history of the IASB, the book provides essential background information that will enrich the perspective of everyone who has to deal with IFRSs or the IASB at a technical or policy-making level. *A-CSEAR 2015-Proceedings of the 14th Australasian Centre on Social and Environmental Accounting Research Conference* Dr James Hazelton and Dr John Dumay, 2015-11-13 The 14th Australasian Centre on Social and Environmental Accounting Research Conference A-CSEAR 2015 is being held on 10-11 December 2015 at Macquarie University Sydney Australia.
