Traber, 2017-06-23. It goes without saying that identity has long been a recurrent topic in studies of American culture. The struggle between group sameness and individual uniqueness is a common issue in understanding diversity in the United States on several levels, including how our differences have not always resulted in national celebration. Terms such as hybridity, performativity, transnationalism, and border zones are part of the current theoretical vocabulary, and for some, they deploy a fresh language of possibility, one promising to undermine the conformist values of monocultural perspectives. To that end, *Culturcide and Non-Identity across American Culture* explores theories and practices of identity from a broad perspective to grasp how varied, diffuse, and distorted they can be, especially when that identity seems boringly familiar. The subjects range from hip-hop parodies to punk preppies to pachuco ska, thus crossing the lines of genre, medium, and discipline to blur the borderline dividing the kinds of texts to which these theories can legitimately be applied. **Lemon-Aid New Cars and Trucks 2012** Phil Edmonston, 2011-12-03. *Lemon-Aid* guides the confused and anxious buyer through the economic meltdown, unlike any other car and truck books on the market. Phil Edmonston, Canada's automotive Dr. Phil, pulls no punches. He says there's never been a better time to buy a new car or truck, thanks to a stronger Canadian dollar and an auto industry offering reduced prices, more cash rebates, low financing rates, bargain leases, and free auto maintenance programs. In this all-new guide, he says Audis are beautiful to behold, but hell to own; biodegradable transmissions, rodent snack wiring, and mind-boggling depreciation.
