health The book is designed to be an indispensable reference and a teaching tool for trainees and clinicians of child and

children and adolescents at high risk for developing psychosis Kids in crisis which examines young patients who have

psychopathology in the context of extreme psychosocial stressors Special attention is given to cultural factors including race

and ethnic identity and how they affect diagnosis and treatment The book s closing section discusses clinical and research

issues in the diagnosis and treatment of child psychopathology Whether they are trainees acquainting themselves with child
