

NOTE:

1. No marks will be awarded for contents repeated from the introduction and conclusion.
 2. The candidate forfeits marks for layout if the words **INTRODUCTION** and **CONCLUSION** are not stated.
 3. No marks will be allocated for layout, if the headings **INTRODUCTION** and **CONCLUSION** are not supported by an explanation.
 4. With the effect from November 2017 a candidate will be awarded a minimum of **ONE (1)** mark for interpretation (18 or more out of 36 marks). This applies specifically to the analysis and interpretation part of insight.
- 15.3 Indicate insight in the left-hand margin with a symbol e.g. (L, A)
- 15.4 The breakdown of marks is indicated at the end of the suggested answer/ marking guidelines to each question.
- 15.5 Mark all relevant facts until the **MAXIMUM** mark in a subsection has been attained. Write **MAX** after maximum marks have been obtained.
- 15.6 At the end of each essay indicate the allocation of marks for facts and marks for insight as follows (L – Layout, A – Analysis) as in the table below:

CONTENT	MARKS
Facts	36 (max)
L	2
A	2
TOTAL	40

- 15.7 When awarding marks for facts, take note of the sub-maxima indicated, especially if candidates do not make use of the same subheadings. Remember, headings and subheadings are encouraged and contribute to insight (structuring/logical flow/sequencing) and indicate clarity of thought. (See **MARK BREAKDOWN** at the end of each question.)
- 15.8 If the candidate identifies/interprets the question **INCORRECTLY**, then he/she may still obtain marks for layout.
- 15.9 If a different approach is used by candidates, ensure that the answers are assessed according to the mark allocation/subheadings as indicated in the marking guideline.

Handbook of Research on Digital Learning Montebello, Matthew, 2019-10-11 Education has gone through numerous radical changes as the digital era has transformed the way we as humans communicate inform ourselves purchase goods and perform other mundane chores at home and at work New and emerging pedagogies have enabled rapid advancements perhaps too rapidly It s a challenge for instructors and researchers alike to remain up to date with educational developments and unlock the full potential that technology could have on this significant profession The Handbook of Research on Digital Learning is an essential reference source that explores the different challenges and opportunities that the new and transformative pedagogies have enabled The challenges will be portrayed through a number of case studies where learners have struggled managed and adapted digital technologies in their effort to progress educational goals Opportunities are revealed and displayed in the form of new methodologies institutions scenarios and ongoing research that seeks to optimize the use of such a medium to assist the digital learner in the future of networked education Featuring research on topics such as mobile learning self directed learning and cultural considerations this book is ideally designed for teachers principals higher education faculty deans curriculum developers instructional designers educational software developers IT specialists students researchers and academicians

The Global Testing Culture William C.

Smith, 2016-01-04 The past thirty years have seen a rapid expansion of testing exposing students worldwide to tests that are now more than ever standardized and linked to high stakes outcomes The use of testing as a policy tool has been legitimized

within international educational development to measure education quality in the vast majority of countries worldwide The embedded nature and normative power of high stakes standardized testing across national contexts can be understood as a global testing culture The global testing culture permeates all aspects of education from financing to parental involvement to teacher and student beliefs and practices The reinforcing nature of the global testing culture leads to an environment where testing becomes synonymous with accountability which becomes synonymous with education quality Underlying the global testing culture is a set of values identified from the increasing literature on world culture These include education as a human right academic intelligence faith in science decentralization and neoliberalism Each of these values highlights different aspects of the dialogue in support of high stakes standardized testing The wide approval of these values and their ability to legitimate various aspects of high stakes testing reinforces the taken for granted notion that such tests are effective and appropriate education practices However a large body of literature emphasizes the negative unintended consequences teaching to the test reshaping the testing pool the inequitable distribution of school resources and teachers attention and reconstructing the role of the student teacher and parent commonly found when standardized census based tests are combined with high stakes outcomes for educators or students This book problematizes this culture by providing critical perspectives that challenge the assumptions of the culture and describe how the culture manifests in national contexts The volume makes it clear that testing per se is not the problem Instead it is how tests are administered used or misused and linked to accountability that provide the global testing culture with its powerful ability to shape schools and society and lead to its unintended undesirable consequences *From GCSEs to EBCs* Great Britain. Parliament. House of Commons.

Education Committee, 2013 The Government's plans for replacing GCSEs with new English Baccalaureate Certificates in some subjects is trying to do too much too fast Introducing several fundamental changes at the same time and to a tight timetable will jeopardise the quality of the reforms and may threaten the stability of the wider exam system GCSEs need significant improvements in order to restore public confidence in the exam system but the Government still needs to make the case that the GCSE brand is so discredited that it is beyond repair MPs are also concerned about the impact of the changes on subjects outside the English Baccalaureate where students will be taking GCSEs for some time to come according to the Government's plans The report also questions how well the Government's proposals will serve lower attaining pupils who are often the most disadvantaged There is no evidence that the proposed changes will help to tackle under achievement or narrow the attainment gap between the richest and poorest students any more effectively than GCSEs The Government is also called upon to re think its plans for a Statement of Achievement specifically for lower attaining pupils MPs agree that changes are needed to the way in which exams are run but they raise serious concerns about franchising subjects to exam boards The report is critical of the Government's decision to abolish some GCSEs before publishing the outcomes of the National Curriculum Review and its proposed changes to the school accountability system MPs also note the wide ranging

stakeholder opposition to many of the Government's proposals **Annual Report** South Africa. Department of Basic Education, 2016 **Assessing Academic Literacy in a Multilingual Society** Albert Weideman, John Read, Theo du Plessis, 2020-11-02 South African universities face major challenges in meeting the needs of their students in the area of academic language and literacy The dominant medium of instruction in the universities is English and to a much lesser extent Afrikaans but only a minority of the national population are native speakers of these languages Nine other languages can be media of instruction in schools which makes the transition to tertiary education difficult enough in itself for students from these schools The focus of this book is on procedures for assessing the academic language and literacy levels and needs of students not in order to exclude students from higher education but rather to identify those who would benefit from further development of their ability in order to undertake their degree studies successfully The volume also aims to bring the innovative solutions designed by South African educators to a wider international audience Resources in Education, 1994
