Garages

Having heated floors in your garage can help control snow in the winter and keep your garage comfortable when you're working on your car.

Driveways

When you install a radiant heating system under your driveway, you don't have to worry about ice and snow removal. Instead, simply turn on your system and let it melt away the ice and snow from your driveway.

Basements

Basements are often damp and cold, but a radiant floor heating system can keep them comfortable. Since heat rises, a radiant system in your basement can help warm your whole house.
