**Secrets of the iPod**  
Christopher Breen, 2004 You don't have to puzzle over why the iPod is so wildly popular Apple's lightweight portable music player can store and organize as many as 10 000 songs and with the new version of iTunes for Windows now PC users can

sync up their iPods with music they've bought on the iTunes Music Store just like Mac users can. With this fourth edition of *Secrets of the iPod*, popular Macworld magazine columnist Christopher Breen brings you even more tricks to help you uncover the hidden potential of your iPod and iPod mini. Book jacket: *iPod & iTunes For Dummies* Tony Bove, Cheryl Rhodes, 2008-01-29. Whether it's the iPod Nano, iPod Shuffle, video iPod, or some other variation, iTunes and iPods go together like treble and bass. It's so easy to purchase the latest music and videos, download podcasts, and even keep track of your calendar on your iPod, so why wouldn't you? But if it's so easy, why do you need *iPod iTunes For Dummies*? iPods now come in everything from 1GB to 80GB models and play movies, store photos, function as a spare hard drive, and even wake you up in the morning. If this is your first one, you'll find no better place to get acquainted with it than in this bestselling book. If you've just purchased a brand new iPod, you'll find this Fifth Edition packed with valuable tidbits about the latest and greatest features. You'll discover how to: Set up an iTunes account; Build a playlist of streaming radio stations; Synchronize your iPod with other devices; Record memos and appointments; Play movies from your iPod on a TV; Connect your iPod to your car stereo or portable speakers; Add and edit iTunes song information; Organize music and media into iTunes playlists; Fine-tune sound playback with either the iPod or iTunes equalizer; Transfer music to your iPod from old tapes and phonograph records. Find out how to use every feature of your favorite iPod model and get the scoop on making the most of iTunes with iPod. *iTunes For Dummies*, 5th Edition. *Designing for Small Screens* Studio 7.5, 2005-10. The design of interactive applications or presentations on small screens can be challenging for the designer. Not all design concepts that are valid on larger screens can be implemented on the small screen. A multitude of different devices with dissimilar technical specifications fall under the category of small screen interfaces. Devices in this category differ in size and type of their display, in the nature of their physical interaction, and in their performance. This book equips the student or practitioner with the appropriate tools with which to develop functional concepts and realise good designs for small screens. In order to tackle and visualise complex design issues, each of the ten chapters in this book is structured in three segments. The first section is dedicated to theoretical reflection and an overview of the fundamental design options that relate to the specific issue in question. The second section offers examples of good working practice and application of the theory described, and the final section offers useful background information such as an explanation of the technical terms that will help you to make informed design decisions. *Selling points* shows professional designers and students how to develop functional concepts and good design for the small screen and pertinent subject given advancing technology in mobile phones, palm top computers, and other small screen devices. Readership: both professional designers and students alike. Authors: Professor Carola Zwick studied at the University of Arts Berlin where she gained an MA in Industrial Design. In 1993 she joined the teaching body at the University of Arts Berlin as an Assistant Professor and together with Burkhard Schmitz she initiated the media group ID 5 within the design course. Carola Zwick has been teaching interface design at the University of Applied Sciences Magdeburg-Stendal since 1998.

Professor Burkhard Schmitz studied at the University of Arts in Berlin where he too gained an MA in Industrial Design In 1989 he became Professor for Media Design at the University of Applied Sciences Schwabisch Gmund In 1993 he returned once more to the University of Arts Berlin where he has taught Interactive Systems since Dipl Designer Kerstin Kuhl studied at the University of Applied Sciences Dessau where she gained a diploma in Graphic Design
