La Longue Vue:

Cabanocey Lillian C. Bourgeois, 1999-04-30 Louisiana has sixty four parishes and many of them are as individual and different as the state itself is different from others in the Union St James Parish a small parish of 249 square miles is not only one of the oldest settlements in the state but it is different in its population make up and is important historically Cabanocey is a splendid history of the Parish of St James Lillian C Bourgeois captured the spirit that animates the population which is descended from French Spanish Acadian German and Creole peoples Bourgeois writes of the population s customs beliefs language differences and folklore Cabanocey is not a collection of dry facts and dates rather it vividly describes how more than one hundred years ago the people of St James Parish lived who they were and what they contributed to their parish and their state Before the Civil War St James Parish was the educational center of Louisiana and Jefferson College was the first important college in the state Founded in 1830 it had fine buildings a well equipped laboratory and an impressive library The Convent of the Sacred Heart 1835 for girls was well known by prominent families in Louisiana Mexico and Central America who sent their daughters there Cabanocey contains St James genealogies and thousands of names of early settlers including the soldiers taxpayers officials prominent families and the first settlers and their children From the early censuses and church and court records descent is traced for many names The censuses of 1766 1769 and 1777 are complete and were obtained from the archives in Seville Spain Landscapes of Memory and Experience Jan Birksted, 2012-12-06 It has been argued that the history of landscape and of gardens has been marginalized from the mainstream of art history and visual studies because of a lack of engagement with the theories methods and concepts of these disciplines This book explores possible ways out of this impasse in such a way that landscape studies would become pivotal through its theoretical advances since landscape studies would challenge the underlying assumptions of traditional phenomenological theory Thus the history and theory of twentieth century landscape might not only once again share concepts and methods with contemporary art and design history but might in turn influence them A complementary sequel to *Relating Architecture to Landscape* this volume of essays explores further areas of interest and discussion in the landscape architecture debate and offers contributions from a team of well known researchers teachers and writers The choice of topics is wide ranging and features case studies of modern and contemporary schemes from the USA Far East and Australasia **Louisiana Gardens** , Helpful maps direct readers to every azalea camellia and magnolia from Afton Villa Gardens in St Francisville to Zemurray Gardens in Loranger **Journal of American Folklore** , 1917 **Le Soulier de Satin [vol. 1]** Paul Claudel, 1929 Five Thousand French Idioms, Gallicisms, Proverbs, Idiomatic Adverbs, Idiomatic Adjectives, Idiomatic Comparisons Charles M.
