Log For Science Report:

The Zoological Record, 1884 Indexes the world's zoological and animal science literature covering all research from biochemistry to veterinary medicine. The database provides a collection of references from over 4,500 international serial publications plus books, meetings, reviews, and other non-serial literature from over 100 countries. It is the oldest continuing database of animal biology indexing literature published from 1864 to the present. Zoological Record has long been recognized as the unofficial register for taxonomy and systematics, but other topics in animal biology are also covered.

Record University of North Carolina (1793-1962), 1919 **Congressional Record** United States. Congress, 2001 The Congressional Record is the official record of the proceedings and debates of the United States Congress. It is published daily when Congress is in session. The Congressional Record began publication in 1873. Debates for sessions prior to 1873 are recorded in *The Debates and Proceedings in the Congress of the United States* 1789-1824, the *Register of Debates in Congress* 1824-1837, and the *Congressional Globe* 1833-1873. **The Science Record** Alfred Ely Beach, 1874 *Zoological Record*, 1901 Zoological Record is published annually in separate sections. The first of these is *Comprehensive Zoology*, followed by sections recording a year's literature relating to a Phylum or Class of the Animal Kingdom. The final section contains the new genera and subgenera indexed in the volume. Each section of a volume lists the sections of that volume.

Scientific and Technical Aerospace Reports, 1994 **Annotated Geothermal Bibliography of Utah**, 1986-01-15 A bibliography of Utah geothermal references through 1984. These references, which directly pertain to a geothermal resource, are annotated. The annotations are intended to inform the reader of the information contained in the article, not to summarize the results. Accompanying the bibliography is a list and description of geothermal projects and commercial geothermal developments in Utah from 1966 to the present that have been wholly or partially funded through Federal or State programs. The references listed in the project descriptions are keyed to the bibliography. Most of this work is by government agencies or universities. Private or industry-funded geothermal developments are not listed. The references are indexed geographically, either under 1. United States national studies, 2. regional western United States or physiographic province, 3. Utah statewide and regional, or 4. county. Reports concerning a particular hot spring or thermal area are listed under both the thermal area and the county names. **Legislative Calendar** United States. Congress. Senate.
