The Manship School Guide to Political Communication David D. Perlmutter, 1999 Examines the role and process of media consulting for political campaigns The pieces included in this guide range from types of political media to targets of political messages Several authors examine the folk ways of the profession of political consulting itself *From Pigeons to News Portals* David D. Perlmutter, John Maxwell Hamilton, 2007-11-01 Ever since the invention of the telegraph journalists have sought to remove the barriers of time and space Today we readily accept that reporters can jet quickly to a distant location and broadcast instantly from a satellite connected video enabled cell phone hanging from their belts But now that live news coverage is possible from virtually anywhere is foreign correspondence better And what are the implications of recent changes in journalistic technology for policy makers and their constituents In *From Pigeons to News Portals* edited by David D Perlmutter and John Maxwell Hamilton scholars and journalists survey probe and demystify the new foreign correspondence that has emerged from rapidly changing media technology These distinguished authors challenge long held beliefs about foreign news coverage not the least of which is whether in our interconnected world such a thing as foreign

news even exists anymore Essays explore the ways people have used new media technology from satellites and cell phones to the Internet to affect content delivery modes and amount and style of coverage They examine the ways in which speedy reporting conflicts with in depth reporting the pros and cons of parachute journalism the declining dominance of mainstream media as a source of foreign news and the implications of this new foreign correspondence for foreign policy Entertainment media such as film television and video gaming form worldwide opinions about America often in negative ways Meanwhile live reporting abroad is both a blessing and curse for foreign policy makers Because foreign news is so vital to effective policy making and citizenship we imperil our future by failing to understand the changes technology brings and how we can wrest the best practice out of those changes This provocative volume offers valuable insights and analyses to help us better understand the evolving state of foreign news

Campaign Finance Reform Melissa M. Smith,Glenda C. Williams,Larry Powell,Gary A. Copeland,2010-06-02 For decades campaign finance reform has been an on going topic of discussion In particular the Bipartisan Campaign Reform Act of 2002 BCRA was heralded as a major breakthrough in controlling the flow of money into campaigns Almost immediately political players found other ways to financially manipulate the new laws Campaign Finance Reform The Political Shell Game provides an in depth look at the history of political campaign finance reform with special emphasis on legislative FEC and federal court actions from the 1970s to present In particular the authors examine the ways

that campaigns and independent groups have sought to make end runs around existing campaign finance rules Oftentimes the loopholes they find make a significant impact on an election sparking the next round of campaign finance reform New rules are then enacted and new loopholes are found Like a big political shell game the amount of money in politics never actually decreases but instead gets moved around from one organization to another

The War Room Warren Kinsella, 2007-10-04 The term war room in political parlance was coined by the team of U S strategists specifically James Carville who worked for Bill Clinton s first presidential campaign in the early 1990s In a nutshell a war room is a political command centre where a candidate s strategists and media officers work to counter attacks by opponents while gathering research to mount an offensive in an ongoing immediate fashion Warren Kinsella s *The War Room* profiles and analyzes some of the best political warriors and spinners around He employs personal anecdotes political wisdom culled from his extensive experience on Liberal Party federal and provincial election campaigns historical examples from other Canadian and American campaigns and generous amounts of humour to deliver a book about what it takes to survive challenges not just in politics but in any kind of business or non governmental agency whether it sells music movies cars or computers or raises money to preserve the environment combat cancer or save animals

New Media, Campaigning and the 2008 Facebook Election Thomas J. Johnson, David D. Perlmutter, 2013-12-16 Some political observers dubbed the 2008 presidential campaign as the Facebook Election Barack Obama in particular employed social media such as blogs Twitter Flickr Digg YouTube MySpace and Facebook to run a grassroots style campaign The Obama campaign was keenly aware that voters particularly the young are not simply consumers of information but conduits of information as well They often replaced the professional filter of traditional media with a social one Social media allowed candidates to do electronically what previously had to be done through shoe leather and phone banks contact volunteers and donors and schedule and promote events The 2008 Election marked a new era where the candidates no longer had complete control over their campaign message The individual viewer in a campaign crowd with a cell phone can record a candidate s gaffe post it on YouTube or Flickr and within days millions will be gasping or guffawing The traditional campaign with its centralized power and planning although not dead now coexists with an unstructured digital democracy

New Media Campaigning and the 2008 Facebook Election examines the way social media changed how candidates campaigned how the media covered the election and how voters received information This book is based on a special issue of *Mass Communication Society*

Campaign 2000 William L. Benoit, 2003 *Campaign 2000* applies the functional theory of political campaign discourse analyzing how messages acclaim attack or defend to several different forms of campaign communication in the 2000 U S presidential primary and general election These forms include political advertisements on television and radio debates television talk show appearances campaign web pages and convention speeches by candidates and their spouses The authors also look at the election outcomes and explore lessons to apply to future campaign discourse

Denton, Jr., Jim A. Kuypers, 2007-11-12 Communication provides the basis of social cohesion issue discussion and legislative enactment core features of political activity and governing in the United States Denton and Kuypers experts in the field of political communication synthesize materials and sources from political science communication history journalism and sociology to demonstrate how communication intersects with these fields to formulate political beliefs attitudes and values Conventional categories of political activity campaigns activity in Congress the courts the mass media and the presidency structure the discussions Theoretical and applied concepts drawn from firsthand sources and classic historical works plus extensive use of contemporary examples enrich understanding Written in an engaging accessible style that is geared to an undergraduate audience the text ignites readers awareness that the essence of politics is talk or human interaction Such interaction is formal and informal verbal and nonverbal public and private but always persuasive in nature causing audiences to interpret to evaluate and to act *Promoting the War Effort* Mordecai Lee, 2012-09-17 Though historians have largely overlooked Robert Horton his public relations campaigns remain fixed in popular memory of the home front during World War II Utilizing all media including the nascent technology of television to rally civilian support Horton's work ranged from educational documentary shorts like *Pots to Planes* which depicted the transformation of aluminum household items into aircraft to posters employing scare tactics such as a German soldier with large eyes staring forward with the tagline *He's Watching You* Iconic and calculated Horton's campaigns raise important questions about the role of public relations in government agencies When are promotional campaigns acceptable Does war necessitate persuasive communication What separates information from propaganda *Promoting the War Effort* traces the career of Horton the first book length study to do so and delves into the controversies surrounding federal public relations A former reporter Horton headed the public relations department for the U S Maritime Commission from 1938 to 1940 Then until Pearl Harbor in December 1941 he directed the Division of Information DOI in the Executive Office of the President where he played key roles in promoting the New Deal President Franklin D Roosevelt's unprecedented third term reelection campaign and the prewar arms production effort After Pearl Harbor Horton's DOI encouraged support for the war primarily focusing on raising civilian and workforce morale But the DOI under Horton assumed a different wartime tone than its World War I predecessor the Committee on Public Information Rather than whipping up prowar hysteria Horton focused on developing campaigns for

more practical purposes such as conservation and production In mid 1942 Roosevelt merged the Division and several other agencies into the Office of War Information Horton stayed in government working as the PR director for several agencies He retired in mid 1946 during the postwar demobilization Promoting the War Effort recovers this influential figure in American politics and contributes to the ongoing public debate about government public relations during a time when questions about how facts are disseminated and spun are of greater relevance than ever before

We Are What We Sell Danielle Sarver Coombs,Bob Batchelor,2014-01-15 For the last 150 years advertising has created a consumer culture in the United States shaping every facet of American life from what we eat and drink to the clothes we wear and the cars we drive In the United States advertising has carved out an essential place in American culture and advertising messages undoubtedly play a significant role in determining how people interpret the world around them This three volume set examines the myriad ways that advertising has influenced many aspects of 20th century American society such as popular culture politics and the economy Advertising not only played a critical role in selling goods to an eager public but it also served to establish the now world renowned consumer culture of our country and fuel the notion of the American dream The collection spotlights the most important advertising campaigns brands and companies in American history from the late 1800s to modern day Each fact driven essay provides insight and in depth analysis that general readers will find fascinating as well as historical details and contextual nuance students and researchers will greatly appreciate These volumes demonstrate why advertising is absolutely necessary not only for companies behind the messaging but also in defining what it means to be an American

Meet the Candidate Videos John Parmelee,2003-03-30 Parmelee shows how presidential primary campaign videocassettes serve many functions for candidates on their road to the White House These videocassettes which include images and issues often based on polling data and focus groups are sent out before the primaries to battleground states to establish an initial image of the candidate A variety of methods are used to explore the videocassettes of the Democratic and Republican presidential candidates Gary Bauer Bill Bradley George W Bush Steve Forbes Al Gore and John McCain who released presidential primary meet the candidate videos during the 2000 race Frame analysis quantitative content analysis and in depth interviews with the producers of these videos were employed to provide answers to Parmelee s main research question What function do candidate videos serve in presidential primary campaigns Findings indicate that these videos which can run from 5 to 20 minutes in length serve a clear educational function to explain the candidates stand on key policy issues The videos which are mailed to voters journalists and potential donors and shown to Democratic and GOP faithful at party functions also serve as fundraisers surrogate speakers and inoculators But while the videos share some common functions each campaign targets its video to a slightly different audience based on the campaign s overall strategy Of particular interest to scholars students and other researchers involved with American presidential politics and political communications

Gregory T. Donovan, 2020-10-21 Canaries in the Data Mine offers an account of the lived experiences and cultural expectations of young people growing up in digital environments increasingly owned by others and designed for profit. At the book's core is a participatory research project that first interviewed New York City teens about their digital habits and then engaged a group of five young people in designing the prototypical platform of their time: a social network. In this engaging book, Gregory T. Donovan penetrates beyond the interface to consider the digital geography of contemporary youth, arguing that understanding what young people are grappling with portends what is or will soon be felt by society at large. Drawing from in-depth interviews and design workshops, he shows how informational capitalism is reproduced at an intimate scale as well as how involving young people in digital design can foster capacities for reworking and resisting the conditions of a rising rentier society.

The Electoral Challenge Stephen C. Craig, David B. Hill, 2010-07-27 What decides elections? Is it the national economic condition, voters' partisan attachments, or the campaigns that candidates run? How much do campaigns matter? Scholars and political consultants will give you different answers. Stephen C. Craig and David B. Hill bring together the voices of both in this engaging volume, now updated to include the volatile and groundbreaking 2008 campaigns and elections. Each chapter features an essay from a top scholar in the field followed by a response from political consultants. Contributors bring to bear the best literature and empirical evidence to determine what we know about the factors that drive election outcomes, all while inviting students to join in the conversation.
