Nolan, 2021-10-14 **Identification and clinical evaluation of senescence-associated markers to distinguish melanocytic nevi from melanomas** Kyriakos Orfanidis, 2019-12-19 Melanoma is a form of cancer that develops in melanocytes While it represents only 5% of skin malignancies it is the most aggressive and lethal Benign proliferation of these cells form the melanocytic nevi The definitive diagnosis of melanocytic nevi or melanoma lesions is histopathologic However it is estimated that a correct diagnosis is established by means of standard skin biopsy in only 83% of the melanocytic lesions of the remaining cases 8% and 9% are overinterpreted false positives and under interpreted false negatives respectively This underscores the importance of additional diagnostic tests Since cellular senescence is considered to be a tumor suppressive mechanism immuno histochemistry using senescence markers has been suggested for the evaluation of difficult melanocytic lesions however the routinely used senescence markers lack the ability to distinguish nevi from melanoma The general aim of this thesis is therefore to identify novel senescence markers that may aid in melanoma diagnosis In study I we established a cellular model with nevus mimicking characteristics consisting in primary melanocytes that become senescent Transcriptomic analysis

allowed expanding the set of senescence associated markers that could distinguish nevi from melanoma and identifying tubulin 3 as a potential diagnostic marker. Depletion of tubulin 3 and pretreatment with tubulin destabilizing drugs in melanocytes and melanoma cells induced a senescence like phenotype in vitro. In particular reduced migration capacity and induction of cell cycle arrest in G2 M phase of the cell cycle was demonstrated. In study II a potential inter cellular signaling pathway between melanoma cells and stromal fibroblasts that might facilitate melanoma invasion was investigated. Ultraviolet UV radiation was shown both in melanoma cells and fibroblasts to promote the release and activation of TGF 1 and subsequent increase in expression of the serine protease FAP a protein that plays role in extracellular matrix degradation and therefore facilitates the invasion of melanoma cells. Such mechanism was not functional in senescent melanocytes. In study III it was shown that tubulin 3 immunostaining aids in the diagnosis of nevi and melanomas. The diagnostic criterium was the tubulin 3 gradient within the melanocytic nevi that was no longer apparent in melanoma. Different patterns of tubulin 3 immunostaining in melanoma were described. Dermoscopy immunohistochemistry associations were found. Specific dermoscopic features highlighted and the prognostic value of this tubulin 3 marker was examined. The progression rate in patients whose melanomas had areas with loss of tubulin 3 was 4 times higher than in patients without this feature although statistical significance could not be reached  $p = 0.06$ . In conclusion transcriptomic analysis expanded the set of senescence associated markers that could distinguish nevi from melanoma and identified tubulin 3 as novel immunohistochemistry marker shown to have diagnostic and probably prognostic value. From a mechanistical point of view ultraviolet radiation was shown to promote not only the formation of melanoma but also its progression by increasing a cathepsin TGF 1 FAP pathway resulting in extracellular matrix degradation.

Malignt melanom r en form av cancer som utvecklas i melanocyter de celler i huden som bildar pigmentet melanin. Men om malignt melanom endast utgör 5% av alla hudcancer är den den mest aggressiva och d dliga. Godartad ansamling av melanocyter bildar en leverfl ck eller ett sk nevus. Vid minsta misstanke om melanom opereras neuset bort och analyseras i mikroskop. Det uppskattas dock att en korrekt diagnos fastställs endast i 83% av de bortopererade lesionerna. Av de återstående fallen är 8% vertolkade och 9% undertolkade. Detta understryker vikten av att förbättra melanomdiagnostik. Melanocyter i nevi anses i motsats till melanom ha avtagande förhållande till att föröka sig efter ett visst antal celledelningar på grund av cellldrande. Påvisande av cellldrande markörer skulle därför kunna förbättra diagnostiken av svårbedömda lesioner. De idag rutinmässigt använda cellldrande markörerna saknar dock förhållande att skilja nevi från melanom. Det övergripande syftet med denna avhandling var därför att försöka identifiera nya cellldrande markörer för att förbättra melanom diagnostiken. I studie I etablerade vi en cellmodell med nevus efterliknande egenskaper bestående av melanocyter som lider. Med genuttrycksanalys studerades cellldrande markörer som kunde skilja nevi från melanom. Proteinet tubulin 3 identifierades som en potentiell diagnostisk markör. Minskning av tubulin 3 och förbehandling med tubulin destabiliserande läkemedel i melanocyter visade sig inducera ett tillstånd som liknar cellldrandet. I studie II

undersktes en signalväg mellan melanomceller och fibroblaster som kan underlätta melanomcellers förmåga att infiltrera och aktivt fröstora omgivande vävnad. Fibroblaster är en typ av bindvävsceller i huden som tillverkar matris som finns mellan celler och extracellulär matrix. Ultraviolett UV-strålning visade sig både i melanomceller och fibroblaster förmedla signalvägen som resulterar i ökat proteinuttryck av FAP, ett protein som bidrar till nedbrytning av extracellulär matrix vilket kan underlätta infiltration av melanomceller. En sådan signalväg var inte funktionell i äldre melanocyter. I studie III visade vi att proteinet tubulin 3 är en markör som underlättar diagnostik av nevi respektive melanom. Det diagnostiska kriteriet var tubulin 3 gradienten som kunde ses i nevi men som ej var synligt i melanom. Olika mönster av tubulin 3 analys i melanom beskrevs kliniska associationer hittades och visade att denna markör för att förutsäga sjukdomens förlopp undersktes. Melanompatienter vars melanom hade omringats med förhöjning av tubulin 3 hade fyra gånger högre progressionstakt av sjukdomen jämfört med patienter utan detta mönster. Sammanfattningsvis studerade vi cell äldre markörer som kunde skilja nevi från melanom och vi identifierade proteinet tubulin 3 som en markör med diagnostiskt och förmodligen prognostiskt värde. Vi visade att ultraviolett strålning inte bara förmedlar melanombildning utan också dess progression genom att skapa en signalväg mellan melanomceller och fibroblaster som resulterar i extracellulär matrixnedbrytning.

Vast amount of information on the role of the vitamins in human health and disease became available. Cobalamin science was however based on theoretical concepts that have been accepted without further proof of facts and hypotheses. Recently the breath taking pace of development in research technologies has changed our understanding for the role of nutrients and the complex interaction between diet environment and diseases. Conditions like aging diet and drugs increase the risk of developing cobalamin deficiency probably because of diminished ability to liberate absorb or distribute the food derived vitamin. From a basic science point of view understanding of the transport and function of the vitamin may pave the road for using this system for drug delivery. This book represents up to date literature on the discoveries and developments in the field of cobalamin. It includes multifaceted aspects of the vitamin in health and disease conditions. The book has been written by leading scientists who have significant contributions in this field and represents therefore a timely unique encyclopaedia on cobalamin.

**Deciphering the Proto-Sinaitic Script** Paul D. LeBlanc,2017-12-01 Egypt Judaism and the history of the alphabet intersect in Deciphering The Proto Sinaitic Script From its initial appearance in around the 18th century BC the origins of

proto Sinaitic writing can be traced back to Egypt's Middle Kingdom period when it was somehow derived from the hieroglyphs its parent system. The importance of proto Sinaitic lies in the fact that it represents the alphabet's earliest developmental period, a kind of missing link between the hieroglyphs and these early Semitic alphabets from which our own Latin one descends by way of the Phoenician and Greek. However, up until now, proto Sinaitic has remained for the most part undeciphered. The intriguing possibility of giving voice to a lost culture or civilization from thousands of years ago is tantalizing. Representing one of the most enticing problems in modern archaeology, the enigmatic allure surrounding ancient languages and the undeciphered scripts in which they are encoded is truly vexing. In his bold and original research, LeBlanc argues convincingly to have solved the mystery and uncovers some incredibly enthralling information about the people who invented it. The epigraphic evidence suggests that the Egyptianized Canaanites who first devised the proto Sinaitic script were surprisingly instrumental in the formation of early Israelite culture and proto Judaism.

## Whispering the Techniques of Language: An Emotional Journey through **Mut Forms 2015**

### **Mut Forms 2015 Introduction**

In the digital age, access to information has become easier than ever before. The ability to download Mut Forms 2015 has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Mut Forms 2015 has opened up a world of possibilities. Downloading Mut Forms 2015 provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Mut Forms 2015 has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Mut Forms 2015. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Mut Forms 2015. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Mut Forms 2015, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Mut

Forms 2015 has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

### **FAQs About Mut Forms 2015 Books**

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality?
