Foreword Social Vulnerability to Disasters, Second Edition Deborah S.K. Thomas, Brenda D. Phillips, William E.

Lovekamp, Alice Fothergill, 2013-05-09 The 2010 Haiti and Chile earthquakes the 2010 BP oil spill in the Gulf of Mexico and the 2011 Fukushima earthquake and tsunami in Japan are but a few examples of recent catastrophic events that continue to reveal how social structure and roles produce extensive human suffering and differential impacts on individuals and communities These events bring social vulnerability to the forefront in considering how disasters unfold clearly revealing that disasters are not created from the physical event alone Equally important people even those considered vulnerable respond in innovative and resilient ways that unveil the strength of human ingenuity and spirit It is not a foregone conclusion that a hazard event even a large one will result in catastrophic loss This updated second edition of Social Vulnerability to Disasters focuses on the social construction of disasters demonstrating how the characteristics of an event are not the only reason that tragedies unfurl By carefully examining and documenting social vulnerabilities throughout the disaster management cycle the book remains essential to emergency management professionals the independent volunteer sector homeland security and related social science fields including public policy sociology geography political science urban and regional planning and public health The new edition is fully updated more international in scope and incorporates significant recent disaster events It also includes new case studies to illustrate important concepts By understanding the nuances of social vulnerability and how these vulnerabilities compound one another we can take steps to reduce the danger to at risk populations and strengthen community resilience overall
