Transcending Self and Other Through Akogare [Desire] Chisato Nonaka,2018-09-26 The Japanese concept of akogare has become well known in TESOL related literature in recent years usually in the context of interracial sexual desire In this far reaching new study of the internationalization of Japanese Higher Education Chisato Nonaka uses akogare as both an analytical lens and the object of enquiry and ultimately reconceptualises it as the creation of a space where individuals negotiate and transcend their ethnic national racial gender or linguistic identities The book innovatively engages with the often controversial binary of Japanese non Japanese and demonstrates how Japan often thought of as a homogenous nation may be at a critical crossroads where long held assumptions about a singular Japanese identity no longer hold true The book has profound implications for how internationalization can mean more than just the use of English

From Language Skills to Literacy Csilla Weninger,2018-11-01

The narrowing of English language education curriculum in many contexts has negatively impacted classroom teaching and learning. High stakes standardized testing, scripted curricula, and the commodification of English have converged to challenge socially meaningful classroom literacy instruction that promotes holistic development. Although in different ways, these factors have shaped the teaching of English as both first and second language. How can English educators respond? This book argues that the first step is to take account of the broader policy, political, and cultural landscape and to identify the key constraints affecting teachers, students, and parents. These will set the broad parameters for developing local pedagogic approaches while still recognizing the constraints that actively push against them. Using Singapore English language teaching as a case study, this book illustrates how this process can unfold and how media literacy principles were vernacularized to design English classroom pedagogies that stretched the bounds of what is acceptable and possible in the local context.

The World of Maritime and Commercial Law Charles Mitchell, Stephen Watterson, 2020-04-30. This collection of 20 essays contains recent work by legal scholars, practitioners, and judges, all internationally renowned for their expertise in the fields of maritime and commercial law. For maritime lawyers, the book contains absorbing and important studies of the law governing maritime collisions, carriage of goods by sea, examining the meaning of actual carriage in the Hamburg Rules, and the complex web of rules that governs multimodal carriage and marine insurance, discussing the history of the doctrine of utmost good faith and jurisdiction clauses in cargo policies. In the area of private international law, there are chapters on the choice of law rules affecting the ownership of ships and on recent cases where conflict of laws issues have been decided by the Privy Council. For generalist commercial lawyers, there is a wealth of scholarship on the Sale of Goods Act 1979, its provisions and scope, and on the rules of contractual interpretation, their history, content, and application in commercial settings. In addition, there are chapters on negotiating damages for breach of contract, illegality, tracing misapplied funds, the application of private law rules to disputes about cryptocurrencies, and developments in the law of directors' duties. Taken as a whole, the essays in this collection stand out for their breadth of scholarship, analytical power, depth of understanding, and penetrating insights even into the knottiest problems of maritime and commercial law. They are essential reading for every maritime and commercial lawyer and a fitting tribute to a scholar who has led the way in both fields for many decades.
