most important liturgical text in English **Early Modern Cultures of Translation** Karen Newman, Jane Tylus, 2015-07-23

Would there have been a Renaissance without translation Karen Newman and Jane Tylus ask in their Introduction to this wide ranging group of essays on the uses of translation in an era formative for the modern age The early modern period saw cross cultural translation on a massive scale Humanists negotiated status by means of their literary skills as translators of culturally prestigious Greek and Latin texts as teachers of those same languages and as purveyors of the new technologies for the dissemination of writing Indeed with the emergence of new vernaculars and new literatures came a sense of the necessary interactions of languages in a moment that can truly be defined as after Babel As they take their starting point from a wide range of primary sources the poems of Louise Lab the first Catalan dictionary early printed versions of the Ptolemy world map the King James Bible and Roger Williams s Key to the Language of America the contributors to this volume provide a sense of the political religious and cultural stakes for translators their patrons and their readers They also vividly show how the very instabilities engendered by unprecedented linguistic and technological change resulted in a far more capacious understanding of translation than what we have today A genuinely interdisciplinary volume Early Modern Cultures of Translation looks both east and west while at the same time telling a story that continues to the present about the slow uncertain rise of English as a major European and eventually world language Contributors Gordon Braden Peter Burke Anne Coldiron Line Cottegnies Margaret Ferguson Edith Grossman Ann Rosalind Jones L zl Kontler Jacques Lezra Carla Nappi Karen Newman Katharina N Piechocki Sarah Rivett Naomi Tadmor Jane Tylus *The Last Bible Book* Daniel J.
