Sotheran's Price Current of Literature, 1918 *The Gest of Robyn Hode: A Critical and Textual Commentary* Robert B. Waltz, The Gest is the earliest major writing about Robin Hood although it tells a tale very different from that found in most modern retellings This version attempts to produce a more accurate text of the long lost original it also provides a modernized parallel To this is added an extensive historical introduction line by line commentary vocabulary study and a selection of other texts which clarify the context of the Gest Dedicated to Patricia Rosenberg *The Politics of the Revised Version* Alan Cadwallader, 2018-12-13 Alan Cadwallader explores the intricate tensions and conflicts that infused the work of revision of the Authorised Version of the Bible between 1870 and 1885 The Promethean aspirations of the venture actually generated one of the most bitter instances of the political manoeuvres involved in the translation of a sacred book Cadwallader reveals how the public avowal of unity and fraternal harmony that accompanied the public release and marketing of the New Testament revision in 1881 and the Old Testament revision in 1885 masks fraught historical realities that threatened the realization of the project from the beginning Through a thorough examination of private correspondence notebooks kept by various members of the New Testament Revision Companies in England and the United States and other previously unstudied primary sources Cadwallader examines and presents the complexities of the political situation surrounding the translation He exposes the competing interests of an imperial sovereign nation and a seriously divided Established Church floundering over its continued relevance the ambitions and significance of Nonconformity in a nation s highly contested religious environment the agonistic conflicts that erupted from assertions of national and international

prestige and responsibilities and the ultimate control exercised by publishing houses that fundamentally flawed the process of revision and the public acceptance of the final product *The New Werner Twentieth Century Edition of the Encyclopaedia Britannica* ,1908 **Dutch Typography in the Sixteenth Century** Paul Valkema Blouw,2013-06-03

When compiling the short title catalogue of books printed in the sixteenth century northern Netherlands from 1541 to 1600 Paul Valkema Blouw was confronted with a large number of problem cases such as anonymously and or surreptitiously printed editions fictitious printers and undated or falsely dated printed works By minutely analysing the typefaces initials vignettes and other ornaments used drawing from his extensive knowledge of secondary literature archival information and his unrivalled typographic memory he not only managed to attribute a surprising number of these publications to a printer but also could establish the period of time in which as well as the places where they must have been printed These findings and the ways in which they were reached are described in the present collection of papers They are of paramount importance to scholars engaged in research of the period concerned whether in the field of church history national history or book history
